## PUBLIC HEARING ASKED AS SHOW-DOWN ON DRY LAW

### Wet Senators Issue Challenge on Modification as Moral Issue Involving Entire Land

(EXCLUSIVE DISPATCH)  
WASHINGTON, March 8.—Plain talk on prohibition by some of the most important men in American public life at the capital today. Senators Bruce, Democrat, Maryland; Edge, Republican, New Jersey, and Edwards, Democrat, New Jersey, came before the Senate Judiciary Committee to demand public hearings on their bills to amend the national prohibition (Volstead) act for the enforcement of the eighteenth Amendment. Their attack was aggressive, their description of conditions often sensational and their reception by the committee extremely grave.

In the end of a two-hour session, part of which was executive session, the committee was unable to reach a decision as to the granting of public hearings. It will take up the subject again at a special session.

Some of the fifteen Senators on prohibition were present to hear the committee's action. The committee was unable to reach a decision as to the granting of public hearings. It will take up the subject again at a special session.

## PLAST TRAPS 28 IN MINE

### Rescuers Save 39 in Explosion

One Person Known Killed;  
Many of Survivors Suffer  
from Burns and Gas

One Shaft Closed by Debris;  
Little Hope for Men Still  
Held Underground

(BY A. P. NIGHT WIRE)  
ROANOKE (Va.) March 8.—The twenty-eight miners entombed early last night when a terrific explosion took place in mine No. 5 of the Crab Orchard Improvement Company at Eccles, W. Va., are believed to have perished, according to telephone messages received by the Roanoke Times, early today.

ECCLLES (W. Va.) March 8.—Twenty-eight miners were entombed and thirty-nine others were brought out alive, following an explosion in mines No. 5 and 6 of the Crab Orchard Improvement Company near here, according to a check made late tonight by officials. One man is known to have been killed. Many of those brought out by rescue crews were badly burned and were suffering from the effects of poison gas.

Working in the belief that some of the trapped men were near the bottom of No. 5 shaft, when the explosion rocked the works, mine officials put crews to work digging through the debris. They found the shaft so badly wrecked that after three hours of toil they had removed only the surface wreckage.

It was expected that two rescue cars, one government car from Thorpe, and a State car from Mount Hope, would reach the mines by early morning. The latter car carried Robert A. Lambie, Chief of the West Virginia department of mine safety.

After viewing the efforts of rescue crews to get into the gas-filled tunnels, mine bosses expressed the belief that the fate of the men will not be determined before daylight. They held little hope for the men, they said, the explosion was terrific.

DOCTORS RUSH TO SCENE  
The rescuers were being aided by doctors from all surrounding mining towns. A State mine department motor rescue car, stationed at Beckley, was at the scene. In this car the burned and gassed men were being treated.

WOMEN HELP DOCTORS  
The women of the mining village soon gathered, seeking word of loved ones trapped below. When it became evident that the rescuers faced a hard task in their attempt to get into the mine, the women turned their attention to the resuscitation of the men brought to the surface. They carried bedding to the wash house and helped the doctors.

(BY CABLE AND ASSOCIATED PRESS)  
LONDON, March 8.—To the lull of waltz music, including strains from the "Merry Widow" waltz, the coffin of Alexander M. Carlisle, famous shipbuilder and friend of the Kaiser, was taken from the chapel at the Golden's Green Crematorium today into the furnace chamber for cremation.

The ceremony was arranged by Mr. Carlisle himself a few weeks ago, when he knew the end was near. He paid for his own cremation and had the certificate framed. He also settled the fee of the organist.

"I have no fear of death," he said. "I want nobody to grieve, therefore I have paid for and instructed the organist to play the waltz from 'The Merry Widow.'"

There were no formal religious rites, no hymns and no prayers. About a dozen mourners were in the midst of the unusual ceremony he collapsed.

## LEAGUE REACHES IMPASSE IN CRISIS OVER COUNCIL

### Assembly Adjourns Sine Die When Nations Striving for Seats in Tribunal Stand Adamant

(BY CABLE AND ASSOCIATED PRESS)  
GENEVA, March 8.—No progress was made today in the crisis over the question of enlargement of the League of Nations Council. The opening session of the Assembly convened for the election of Germany adjourned tonight after a dramatic appeal by the President, Dr. Alfonso da Costa, former Premier of Portugal, for harmony, without designating a day for the next meeting.

To gain time to permit the reappearance of Dr. Brundage, the subcommittee of both Assembly and Council will take up auxiliary matters tomorrow.

The day closed with a continuation of the almost frenzied exchange of visits between the statesmen and with all parties to the conflict for Council seats adhering rigidly to their original positions and openly proclaiming that they have no intention of conceding one iota.

VOICES DEMAND  
Count Quinquies de Leon, Spanish Ambassador to France, said: "Spain demands a permanent seat simultaneously with Germany. As for the idea of a subcommittee investigating how best to reconstruct the Council, we do not favor it."

The Brazilian spokesman explained the attitude of that country: "We are going to pursue our claims for a permanent seat to the end. We do not know what the end will be, but we are persevering. We cannot allow a whole continent to remain without permanent representation, and in this claim we have no Latin-American rivals."

The Swedish representative declared: "We will not agree to any present enlargement of the Council, even if Germany's approval is won for it."

The Polish delegates seemed less confident, yet no less insistent in their demand for a permanent seat.

BETTER SPIRIT  
Despite the undoubted crisis, members of the Council not directly connected with the present conflict informed the Associated Press correspondent tonight that they deemed yesterday's conversations with Dr. Luther and Dr. Brundage the German delegates helpful, in that they removed the spirit of vindictiveness engendered by the dispute. They therefore thought that the assembly would be able to settle the matter in a reasonable manner.

In their best judgment the proper procedure is the election of Germany to a permanent seat, the entire problem of the reconstruction of the Council then to be submitted for profound study. One point suggested was the adoption of a clear-cut system of rotation for the non-permanent chair.

TURNING POINT  
Dr. Da Costa in his salutary address, stated that the League's life had reached a turning point, and sought neither to make nor let others make depressing suggestions. Recalling Locarno he asserted that its harmony had brought all peoples together in fraternity and hope for the opening up for mankind of an era of tranquility and happiness after all the anguish and suffering of the past.

STAND ANNOUNCED  
Dr. Balle Godofsky, former Foreign Minister of Chile, came out flatly tonight in support of Brazil's candidacy for a permanent seat, if the Council is enlarged. He said that Latin-Americans generally favor the Brazilian cause.

The special session of the Assembly was opened at 1:10 o'clock (Continued on Page 2, Column 6)

## SHEFFIELD HANDS NOTE TO MEXICO

### Third Letter of Protest Upholds Stand Laws Are Confiscatory

(BY CABLE—EXCLUSIVE DISPATCH)  
MEXICO CITY, March 8.—Ambassador Sheffield said today that the official American note arrived this morning, and he immediately delivered it to Foreign Secretary Saenz.

The contents of the note are said to support Sheffield's original recommendations to Secretary of State Kellogg when the land and oil laws controversy opened with an exchange of notes by both governments in January.

Today's note is the third American communication on the subject, and the second which Kellogg has addressed directly to Saenz. In this note the United States again maintains its original attitude that the land and oil laws as they now stand are retroactive and confiscatory. Mention is made of five Mexican Supreme Court decisions rendered during the administration of Article XXVII of the Mexican Constitution, from which the entire controversy arose.

It is also pointed out that the United States considers both laws contrary to assurances of the then President Obregon's delegates made in 1923 at conferences preceding the resumption of diplomatic relations.

Today's note received by Mr. Sheffield was the official copy forwarded by mail, another copy having been handed to Mexican Ambassador Teller at Washington as a matter of courtesy. It is pointed out that the diplomatic usage has been followed in the matter and that reports that Mr. Sheffield had been shelved in the negotiations are proved groundless.

## JAPANESE SEA LINE MERGER COMPLETED

### COMBINE REQUIRES BUILDING THREE NEW SHIPS AT COST OF \$12,000,000

(BY A. P. NIGHT WIRE)  
WASHINGTON, March 8.—The long-pending merger of the Toyo Kisen Kaisha and the Nippon Yusen Kaisha, Japanese steamship lines, has been completed, the Department of Commerce was advised today in Consular advices from Tokyo.

Under the merger, the Toyo company will transfer to the Nippon interests, provided the Diet passes a bill subsidizing three new steamers of 14,000 tons each, its eight steamers now operating on the trans-Pacific run to San Francisco and South American ports, together with the right to operate these routes.

In return, the Toyo company will receive 25,000 shares of Nippon stock with a par value of about \$1.50 each.

The advantage of the merger was expected the three new steamers would be constructed in Japan at an estimated cost of approximately \$12,000,000, and that subsidy bill would provide about \$1,250,000 for their operation.

RAIN PLAYS PRANKS  
IN SOUTHLAND  
Rain, coming from the north, played various pranks yesterday, distributing itself over scattered territory from Tulare county to Hemet, in the higher reaches of Riverside county. The only rain reported in Los Angeles county was in the San Fernando Valley, and there only the towns of Van Nuys, Reseda and Glendale were visited by the storm. Van Nuys reported .09 of an inch, bringing its season total to 11.16; Reseda had .25, which made 8.85 for the season, and Glendale reported .14, which made the season total 10.59.

In Kern county the rain fell in stifling showers late Sunday night and during the early morning yesterday. The total precipitation in Bakersfield was .04 of an inch, which raised its season's total to 4.45 compared to 7.53 last year. Ten-hundredths of an inch fell at Greenfield.

Hanford, in Kings county, reported a fall of .04 of an inch, which made its season's total 3.81. Last year at this time the total was 5.69.

Tulare county reported a general fall over the county. Gauges at Porterville recorded .05 of an inch, making a total for the season of 4.45 compared to 7.53 last year. Two years ago at this time the total was 2.82. In Lindsay the storm totaled only .02 of an inch, making its total for the season 4.09, with 7.65 registered at the same date last year. The total two years ago was 2.42.

At Hemet, near the San Jacinto Mountains in Riverside county, there was a rainfall of .16 of an inch, making the season total 1.22, compared to 4.45 a year ago.

CORLISS PALMER MUST PAY  
Jury Awards Wife of Publisher \$200,000 For  
Asserted Alienation of Affections

(EXCLUSIVE DISPATCH)  
NEW YORK, March 8.—It required just one hour today for a jury in Supreme Court to award Mrs. Eleanor V. V. Brewster \$200,000 damages against Corliss Palmer, prize-winning beauty, for alienation of the affections of Eugene V. Brewster, the publisher. The suit was undenied.

Neither Miss Palmer nor Mr. Brewster appeared in court, and the only witness was Mrs. Brewster. Quite calmly she gave a recital of the acts on which she based her charges. Then the issue was handed to the jury, which was instructed by Justice O'Malley.

Miss Palmer is in Hollywood and Mr. Brewster is also in California. Louis H. Pink, Miss Palmer's attorney, said he had telegraphed to her to learn what she desired to do about the suit and that she had not replied.

Mrs. Brewster told of her husband's meeting with Miss Palmer through a beauty contest conducted by his motion-picture magazine; of the young woman's sojourn in their home at Roslyn, L. I., and of her conduct with Mr. Brewster. "She lived right in our home," Mrs. Brewster said, "and at last

ILLINOIS PROFESSORS IDENTIFY ONE OF FIVE HITHERTO  
UNKNOWN CHEMICAL SUBSTANCES

(BY A. P. NIGHT WIRE)  
URBANA (Ill.) March 8.—Nearly twenty years of research in the "rare earth" group of the chemical field finally has resulted in the discovery of one of the five unknown but supposedly existent elements which make up all known compounds.

The discovery, the first ever made in America, was announced today by the University of Illinois as the work of Dr. R. S. Hopkins, president of inorganic chemistry, assisted by L. F. Lynema and J. A. Harris of the chemistry staff.

The new element is known as number sixty-one. No name has been suggested for it.

In the list of ninety-two known and unknown elements of the earth, a place was saved for an unknown element between number sixty, samarium, and number sixty-two, cerium.

Previously, the newest element was hafnium, discovered of 1922. That announcement created great interest, but the element has remained comparatively little known. Helium is the youngest familiar element.

Number sixty-one may remain the only chemical element discovered in America, because the other four unknown elements are the objects of very definite searches in other parts of the world. Every known element may be made to produce X-rays which affect a photographic plate in a definite manner, and it is possible by using the X-ray to tell exactly what element is being examined. Especially constructed X-ray machinery was designed and manufactured on the University of Illinois campus for the work.

TWO CHURCHES  
SUPPORT UNITYChristian Co-ordination to be  
Talked from PulpitsPresbyterians and Episcop-

Keynote of Meeting

(BY A. P. NIGHT WIRE)

CHICAGO, March 8.—An active program in support of Christian unity to be conducted from the pulpits of the two denominations during the coming year was adopted today at a national conference of delegates of the Presbyterian and Episcopal churches. They met under the auspices of the World Conference of Faith and Order, sponsoring the international church meeting to be held at Lausanne, Switzerland, in August, 1927.

"Heretofore, we in the various denominations have formed each other heretics and outsiders. Now we are ready to work and pray together," Rev. Charles P. Anderson, bishop of Chicago, said.

The keynote of the meeting was phrased by Rev. Robert E. Speer, New York City, president of the Presbyterian mission board, who asserted "We are not meeting for an introspective discussion, but for the positive purpose of declaring the faith of the churches against unbelief. The ministry is not a matter of individual rights, but for the organization of the attack on evil."

"The churches are likely to be left far behind the nations in the coming fellowship," declared Rev. Talbot Rogers of Sunbury, Pa., urging the need for a progressive unity program.

POLICY FORMED ON  
FUNDAMENTALISM

(EXCLUSIVE DISPATCH)

CHICAGO, March 8.—A policy for the Presbyterian church on fundamentalism will be adopted for recommendation to the next general assembly to be held in Baltimore in May by leaders of the denomination meeting this week in Chicago.

The special commission of 1925 appointed by the general assembly of that year as an outgrowth of a theological controversy which has raged in several Protestant denominations for the last three years, "to study the present spiritual condition of the church and the causes making for unrest, and to report to the next general assembly to the end that the purity, peace, unity and progress of the church may be assured," will prepare its report as ordered.

TUCSON WILL VOTE ON  
FRANCHISE EXTENSION

(EXCLUSIVE DISPATCH)

TUCSON (Ariz.), March 8.—Extension for twenty-five years of the franchise of the Tucson Gas, Electric Light and Power Company is to be voted upon by Tucson voters on April 5, next. Decreased rates are promised. The company has made large improvements during the past year and its officials state their 4000-horsepower plant, with new Diesel engines, is capable of carrying 100 per cent more than its present loading. More than 800 customers were added during the past year in the gas division. Current plans for pumping in the agricultural district around the city. Some consideration is given to plans for connecting with the hydroelectric system of the Salt River Valley Association, which will have surplus current after completion of a new dam on Salt River.

ELECTRICITY MAY BE  
USED TO KILL GERMS

(BY A. P. NIGHT WIRE)

SACRAMENTO, March 8.—Several million quints of undrinkable bacteria found guilty of conspiring against the cleanliness of California dairies will be electrocuted as soon as the State committee on the relation of electricity to agriculture can find a good way to do it. Present methods of sterilizing milk bottles and other containers handled in a dairy are efficient, but also expensive, and the committee is investigating the practicability of shocking bacteria to death in an electrically charged wash. Electric current already is used in one Sacramento dairy to transform salt water into a hypochlorite solution of great germicidal strength.

LONDON CRITICS KIND

(BY CABLE AND ASSOCIATED PRESS)

LONDON, March 8.—James Gleason has been as kindly received by the London critics as any American actor who has visited England in a long time. His appearance in "The Ziegfeld Follies" has also co-authored, has been generally heralded in the London papers as the greatest laugh America has given London since "Potash and Perlmutter" struck England. The critics acclaim Gleason, in the role of the prizefighter promoter, and Robert Armstrong, as the lightweight fighter, as one of the funniest teams London has seen in years. The ability of the British public to understand the New York slang and follow the rapid patter of the comedienne is ascribed by several critics to the influence of American films.

California's Canine

(BY A. P. NIGHT WIRE)

SACRAMENTO, March 8.—City-bred dogs in California number about 150,000. State Controller Riley revealed today, basing his estimate on the dog license taxes taken in by the various municipalities. This is a 10 per cent increase over the dog population of California cities five years ago, but a comparison of the total with the automobile registration for 1925 indicates the hounds soon may become run down from overwork. With only 150,000 dogs and about 1,500,000 automobiles, each dog, if he does his share, has about ten automobiles to chase. As yet, however, no dog fancier has arisen to view the situation with alarm.

CapitalThousands Sign Petition to  
Shortridge

(EXCLUSIVE DISPATCH)

WASHINGTON, March 8.—Fearing that Sunday blue law bills, applying to the District of Columbia, now in the House committee on the district, may become law and be the opening wedge in a nationwide fight for a Federal statute prohibiting sports and amusements on Sunday in the United States, fifteen California cities have filed petitions containing over seven thousand names with Senator Shortridge, expressing their disapproval of the bills.

At the same time that Senator Shortridge incorporated the petitions from Anaheim, Brawley, Calexico, Colton, Corona, El Centro, Fullerton, Imperial, Los Angeles, Ontario, Orange, Pomona, Redlands, Riverside and San Francisco in the record of the Senate, Congressman Edwards of Georgia introduced a bill in the House to "prohibit public dancing, theaters and other secular and commercialized sports and amusements on Sunday in the District of Columbia."

Representative Edwards' bill was referred to the committee on the District of Columbia, where there are two other bills of this nature under consideration.

While there are several States with Sunday blue laws, there is no Federal statute affecting the observance of the Sabbath and the proposed regulations for the District of Columbia would be the first Federal enactment of this nature. While admitting that such laws might be found unconstitutional, friends of Sunday observance legislation maintain that a constitutional amendment could be passed to affirm the observance of the United States, and that the regulation of the Lord's day in the district is but the beginning of the fight.

Mississippi Judge Silent on  
Newspapers' Defiance of  
Publication Order

(BY A. P. NIGHT WIRE)

HANCOCK COUNTY COURT-ROOM, BAY ST. LOUIS (Miss.), March 8.—With no word from the bench as to the observance or disregard by newspapers circulating in Hancock county of the court order prohibiting publication of testimony, the trial of Jesse Favre, charged with murder in connection with the slaying of John A. McLeure and W. W. Minnie, Federal antagonists, February 13, last, proceeded today. Newspapers were in circulation in Bay St. Louis containing portions of testimony developed at Saturday's session.

Judge White, who issued the order to certain newspapers to refrain from publishing testimony at the trial, conferred with attorneys representing New Orleans papers and the court opened this morning. Afterward the attorneys stated that "it is understood that the trial of Jesse Favre will not be complicated by raising this issue before a termination of the pending case."

The attorneys made it clear that they were not speaking for Judge White and the judge later told the Associated Press that he had authorized no statement which he proposed to do, other than to say: "I am not going to stop the trial of Jesse Favre by any means, paper reporters or anyone else."

The statement by the attorneys suggested that "it is probable that the court will give no official notice to the publication of the testimony until efforts shall be made to obtain a jury in substitution for the grand jury of the same homicide, but no such announcement has come from Judge White."

Arrest Reveals  
Young Negro as  
Expert Burglar

(BY A. P. NIGHT WIRE)

MARYSVILLE, March 8.—The unanny ability of Leroy Gibbons, 14-year-old negro, to pick a lock with ease was revealed today when the youth was arrested in connection with a series of burglaries that have been baffling the police here for weeks.

The youth was arrested last night by Sheriff C. J. McCoy, who said he caught him in the act of attempting to open a safe by "feeling" the combination. The Sheriff said the lad admitted he was responsible for twenty-four other burglaries in the Marysville section. Gibbons named 12-year-old Fred Kupper, his school-mate, as an accomplice. Kupper was detained also.

Gibbons said he is able to "pick" an ordinary lock without damaging it.

California's Canine  
Population Gaining

(BY A. P. NIGHT WIRE)

SACRAMENTO, March 8.—City-bred dogs in California number about 150,000. State Controller Riley revealed today, basing his estimate on the dog license taxes taken in by the various municipalities. This is a 10 per cent increase over the dog population of California cities five years ago, but a comparison of the total with the automobile registration for 1925 indicates the hounds soon may become run down from overwork. With only 150,000 dogs and about 1,500,000 automobiles, each dog, if he does his share, has about ten automobiles to chase. As yet, however, no dog fancier has arisen to view the situation with alarm.

Ship Crashes Into  
Submerged Wreck

(BY A. P. NIGHT WIRE)

ABERDEEN (Wash.), March 8.—Unappraised of the Horsaean Maru disaster on Grays Harbor bar last Thursday night, the steam schooner Oregon, inbound from San Francisco, crashed head-on into a submerged portion of the Horsaean hull about 6 a.m. today. She limped to a dock in Hoquiam, leaking badly.

Gas Fumes Fatal To  
New Jersey Family

(BY A. P. NIGHT WIRE)

JERSEY CITY (N. J.), March 8.—Four persons were found dead of gas poisoning in their home here today. The dead are Mrs. Ellen Beth Martin, 39 years of age; Philip Wolf, 47, her father-in-law; and her two daughters, Mary, 7, and Frances, 5. The bodies were discovered by James Martin, the husband, who broke a window to enter his home. Police believed the deaths were accidental.

**Storm Breaks Wire, Yuma in Darkness**

**MYSTERY SURROUNDS FATE OF PLANE FORCED DOWN BY HIGH WINDS**

(EXCLUSIVE DISPATCH) YUMA (Ariz.), March 8.—Yuma was without light and power tonight, due to a terrific storm which broke the main high-voltage line of the Southern Arizona Power Company somewhere between Holtville, fifty-two miles west of here, and the Imperial county and Imperial, thirty miles east of Holtville, at 2 o'clock this afternoon. Yuma's power comes more than 500 miles from Bishop, Cal.

The local emergency plant was put into operation shortly after 4 o'clock, but it was struck by lightning and the coils burned out. The electrical storm here was preceded by a brief standstill and a trace of rain.

Reports from all points outside of and adjacent to Yuma, however, indicate heavy rainfall, high winds and hail.

On the advice of motorists arriving from the west, practically all west-bound traffic has been halted here because of report of impassable condition of the paved roads around Holtville, Brawley and Westmoreland. The Phoenix Roadward, however, is in good condition.

A large government airplane, westbound, was seen by motorists flying at an altitude of less than 100 feet over Kintner, sixteen miles east of here on the Phoenix highway at 3:30 this afternoon just before a terrific hailstorm broke. Observers expressed the belief that the plane was flying too far north from the regular course and that it must have been forced down by the heavy storm in an area where there is no safe landing place.

The plane is thought to be a United States Army Martin bomber, piloted by Lieut. Harry Wedington, en route from Fort Sam Houston, Tex., to San Diego or Santa Monica, Cal.

A searching party has gone out to endeavor to learn the fate of the aircraft.

"Miracle Man" Restores Vision to Blind War Veterans

(BY CABLE-EXCLUSIVE DISPATCH) PARIS, March 13.—Twenty-five soldiers blinded in the war, have regained their sight through operations performed by Dr. Bonferron of Bordeaux, called the "Miracle Man."

A total of 15,000 of France's heroes of the battlefields lost their vision through bursting shells or bombs. Eight hundred are now undergoing treatment. Dr. Bonferron's fame has spread throughout all Europe and scores of soldiers of other nations have asked that he operate upon them.

### REALLY, DEMPSEY WILL FACE WILLS LABOR DAY - - - - - IF

(BY A. P. NIGHT WIRE)  
CHICAGO, March 8.—Jack Dempsey will give Harry Wills  
a long-awaited chance at the heavyweight boxing title on Labor  
Day and in Chicago—  
The principal part of the "if" Floyd Fitz-  
simmons' intimated before departing last  
night for Los Angeles, is Chicago's action in  
passing or failing to pass a measure to  
legalize the sport here.  
Fitzsimmons, who possesses the only docu-  
ments extant that can bring Wills and the  
champion together in the immediate future,  
said Chicago promoters with whom he and  
Jack conferred over the week-end, had of-  
fered "satisfactory" proposals and credentials.  
Wills is leaving everything to the future and  
Fitzsimmons.  
The offers were from representatives of  
the Coliseum Athletic Club, a syndicate in  
South Bend, Ind., and individual sportsmen.  
The promoter did not definitely commit him-  
self, but his inference was that passage of  
the boxing bill virtually is all that is neces-  
sary to obtain the match.

### SUDS FACE OCCIDENTAL

College Nine Journeys to Hermosa Beach This After-  
noon for Exhibition Game With Seattle

The Seattle Suds, sojourning in their training camp at Hermosa  
Beach, will play the Occidental College nine at the beach diamond  
this afternoon.  
Coach Clark's college team is the  
one amateur team in Southern Cal-  
ifornia with the possible exception  
of U. S. C. that is attracting the  
attention of big  
league and  
Coca-Cola circuit  
coaches. The  
fact speaks for  
the quality of  
the players on  
the team. Led  
by Solly Mishkin,  
Les Hasegout,  
and Bud Teachout.  
All three have  
been made of-  
fers to join pro-  
fessional teams.  
Teachout will probably start on  
the mound for the Bengals and will  
be relieved by Johnny Powers.

Who the Suds will use is not  
known. Sunday they lost to  
the Shell Oil nine by a 6-to-4  
score in their first exhibition  
game this season. Seventeen  
players were given a trial in  
the game. Lee and Campbell  
were on the slab, yielding a to-  
tal of thirteen hits. It is to  
be expected that another as-  
sessment of players will be  
used this afternoon, giving the  
Indian's management a look at  
unknown material.  
The college boys will have their  
biggest difficulty with their hits. At  
the middle of last week the batting  
eye of some of the stand-bys,  
Hasegout, Godett, Mishkin and Char-

lie was not too good. Later, how-  
ever, they were reported to be  
slugging the pill out into the  
bleachers at the Eagle Rock dia-  
mond. If they can get their eye in  
focus today they will make the  
afternoon interesting and valuable  
to the Suds.  
Johnny Powers and Bud Teach-  
out worked their first game last  
Saturday when the Tigers played  
the L.A.A.C. team at Franklin  
High School and held their oppo-  
nents to one hit and one run,  
winning the tilt, 3 to 1. Powers  
worked the first five innings and  
Teachout finished the game. The  
Mercuries found Bud for their only  
hit.

### POLY TRACKMEN MEET PIONEERS

Dedicate New Bleachers With  
Trackfest Today

Poly's Showing Against  
Hollywood Startling  
Roman Stars on Edge to Win  
from Ancient Rivals

Track teams from Polytechnic  
and Los Angeles high schools,  
which helped to open the City  
League schedule last Friday, clash  
this afternoon on the Romans'  
field in an affair that should have  
something of a definite bearing on  
the ultimate result of the City  
League championship race. The  
meeting of the two old rivals will  
not only serve to provide the fans  
with a red-hot track meet, but will  
also be used as the fireworks for  
the dedication of a new set of  
bleachers, recent adornment of  
the L. A. High field.

The Romans opened their City  
League schedule with a victory  
over Jefferson, while Poly dropped  
a close verdict  
to Hollywood  
High. Today's  
final result is  
expected to  
prove just ex-  
actly where  
Coach Ed Rich's  
Pioneers stand. The  
Romans were  
early season fa-  
vorites to fur-  
nish the strong-  
est competition  
in the circuit  
but the parks  
made against  
them were not  
any too in-  
dicative of strength and speed.

On the other hand, despite losing,  
Poly displayed a world of athletic  
talents in practically every event.  
By winning, the Pioneers became  
favorites to win the championship,  
and the fact that they were forced  
to the limit by Poly, and then  
won by only the slightest of mar-  
gins, has caused considerable at-  
tention to be directed to the Me-  
chanics.

Three times Lohman was  
knocked down and in the fifth  
and ninth the bell saved him. After  
two minutes of "battering" in the  
tenth, his hands threw a towel  
into the ring in token of surren-  
der.

The men released were  
Jack Korman, catcher, Los An-  
geles; Harry Bray, pitcher;  
Buddy Fee, infielder; Louis  
Rosenberg, infielder; and Ro-  
land Roberts, pitcher, all from  
Oakland, and Ole Johnson and  
Eric Borkholm, Southern Cal-  
ifornia pitchers. The Killefer  
team was put through a sit-  
ting game, which ended in a  
4-to-4 tie. Borkholm and  
Brady did the pitching for the  
two teams while Borkholm  
and Brady were on the slab.  
The Killefer team, with  
two extra base clubs, and  
Harry Callaghan, with  
the same number, provided the  
hitting feature.

Killefer announced that he had  
signed a pair of exhibition game  
to be played with the Cub rookies  
in the Shell Oil park the 20th and  
21st inst., and also that he hoped  
to get a pair of contests with the  
Pittsburgh second team for the  
next week-end.

JOHNNY LAMAR'S  
MANAGER SUSPENDED  
Jack (Pop) Russell, manager of  
Johnny Lamar, lightweight fighter,  
was indefinitely suspended yester-  
day by Seth Strellinger, chairman  
of the State Athletic Commission.  
Russell acted in a pugna-  
cious manner at the Hollywood stadium  
last Friday night when referee  
Freddie Gilmore refused to award  
Lamar his fight with Ace Hudkins  
when Johnny went to the canvas  
from a low blow in the second  
round. Barney Meyers, who, with  
Russell, manages Lamar, was also  
suspended by Strellinger.

(BY CABLE AND ASSOCIATED PRESS)  
NICE (France) March 8.—The  
Nice tennis tournament, which  
opened today, suffered two heavy  
losses when  
Frau Neppach, the German  
champion, scratched her  
entry and left  
suddenly for  
Berlin, and  
Senorita De Al-

### IT'S AN ART WITH WEIS

Meaning, of course, this batting business. Weis, by his ter-  
rific hitting in the exhibition games Friday and Saturday, made Joe  
McCarthy wish that the Chicago Cubs hadn't given him to the An-  
gels. Weis got six hits in nine times at bat in the two games  
against the Cubs and drove in seven runs for the Angels. Weis's  
real name is Arthur, but his baseball moniker is "Butch."

### M'CARTHY FINDS ERRORS

Cub Boss to Correct Weaknesses Discovered in  
Practice Tilts With Local Clubs

(EXCLUSIVE DISPATCH)  
AVALON, March 8.—Manager McCarthy finally has something  
definite to work on. Three exhibition games in Los Angeles did more  
to show him the weak spots in his ball club than all the practice  
tilts he has had since he took over the team. He knows just where the trouble lies, and it  
will be his job the next three days to rectify certain glaring errors  
and whip the team into shape for the season.

As far as physical condition is  
concerned, the Cubs are as per-  
fect as they ever will be. They  
need no training  
to strengthen  
their limbs or  
harden them.  
That was done  
before they ad-  
vanced to the  
fine points of  
the pastime.  
Except for the  
first contest in  
Los Angeles  
the Bruins did  
not display any  
remarkable abil-  
ity. The last  
two affairs were  
slow and tire-  
some. The fans  
found it difficult  
to cheer and pep  
up the athletes.

During the next three days  
McCarthy is going to preach  
the necessity of shouting and  
encouraging one another in a  
game, regardless of the value  
of the victory. It has always  
been his contention that a little  
talking among the men on the  
field helps the pitcher a great  
deal and stimulates interest in  
the boys on the bench, so this  
afternoon the Cubs got a few  
lessons in this end of the  
game.

OUTFIELDER COMES AS  
PART OF LAZERRE DEAL  
The feature of yesterday's workout of the Hollywood Bees  
was the arrival of Mr. Frank Zoellers, outfielder extraordinary  
who performed with Bert Nighoff's Atlanta club last year, and  
his announcement that he was all ready to start work this  
morning. Zoellers' arrival cuts the list of missing Bees down  
to three, Pitchers Hal Merritt and Jack Northrup and Utility-  
man Fritz Coumbe being the trio still out in the world.

With Zoellers on hand, the Bees' experienced outfielders for the com-  
ing games with the Bruins and  
will be able to present a much  
stronger line when they tackle the  
Chicago Cubs again at Wrigley  
Field Friday and Saturday. Man-  
ager Oscar Vitt will have four ex-  
perienced outfielders for the com-  
ing games with the Bruins and  
will not be forced to use Fer-  
nandez, who is a good prospect,  
but is not yet ripe for duty  
in this loop, in one of the out-  
er gardens. Zoellers comes to the  
Bees from Atlanta via the Yankees  
as part payment for Tony Lasserre.  
The new Hollywooder is rated as  
an excellent base runner and was  
the lead-off man for Atlanta last  
year. Zoellers is said to be a  
dash on the paths, a hard man to  
keep off the baselines, and equally  
hard to keep away from the plate  
other he gets on the sacks.  
Gus Redman, the young catcher,  
whom Lane purchased from Louis-  
ville, and Mack Hillis, the third-  
base, who checked in from  
Mesa as a substitute  
last Saturday,  
went through their initial  
workouts of the  
year at Gil-  
more Park yester-  
day. While  
resting up in

pont lobby last  
night, Redman  
and Hillis  
agreed that Oc-  
car Vitt cer-  
tainly works  
newcomers hard on their first day  
out.

The Bees Regulars and Yanni-  
gans went through a nine-inning  
practice tilt yesterday with the  
Regulars winning out by some  
score or another. Vitt worked  
four veteran hurlers, "Sheriff"  
Singleton, Frank Shellenback, Dick  
McCabe and Harry O'Neill, and all  
showed that they are coming along  
in rapid shape. In the Friday and  
Saturday games with the Cubs, Vitt  
plans to shoot in a couple of regu-  
lar hurlers for one tilt and let the  
youngsters work the other.

*Methodist Body Sarcastic on Democratic Leader*  
*'Few Real Candidates' Asked in Hot Statement*  
*Governor Comes Right Back With Challenge*

(BY A. P. NIGHT WIRE)  
WASHINGTON, March 8.—Already having announced unalterable opposition to the nomination of Gov. Smith of New York as the Democratic Presidential candidate in 1928, the board of temperance and morals of the Methodist Episcopal church here turned its guns on Gov. Ritchie of Maryland. "They have been talking of Gov. Ritchie for the Democratic Presidential nomination," a statement given out today by the board's press bureau said. "When they get through joking why not trot out a few real candidates?" "If Ritchie were nominated the Republicans could send any cub reporter to Annapolis and get enough real dope in one-half hour to make every real Democrat wish that Ritchie had never been born."

**GOVERNOR READY WITH STINGING REPLY**  
(BY A. P. NIGHT WIRE)  
ANNAPOLIS (Md.) March 8.—Gov. Ritchie of Maryland let it be known he can be found at the State Capitol if "scouts" of the board of temperance and public morals of the Methodist Episcopal church should come here seeking "real dope" as to his Democratic standing—and he is wondering whether they will bring a rope. "It's a pity that people who profess to stand for a worthy cause sometimes descend to unworthy methods and untrue statements in advancing it," the Governor said in a statement in answer to the attack made upon him today by that

**TRY TRICK ON INSANE MAN**  
(EXCLUSIVE DISPATCH)  
CHICAGO, March 8.—A novel experiment will be tried tomorrow at the Asylum for Insane at Peoria in the hope of restoring the sanity of Josef Bartof. The same yellow cab and its driver that Bartof employed here January 14, last, when he left his wallet, containing approximately \$600, in the cab, will be taken to Peoria from Chicago. Worry over this loss drove him insane and eventually he was taken to the asylum. Meanwhile the Yellow Cab Company had spent considerable money

advertising for the owner of the money, but it appears Bartof, who resided in a small town, did not hear of these efforts. The original cab and driver will draw up before the asylum door tomorrow and Bartof will be asked to take a ride. Lying on the seat of the cab will be his wallet, containing the full sum of money. Experts in insanity believe this plan will restore Bartof's reason. He is a veteran of the World War and the American Legion publication suggested this experiment.

**Hindenburg Not Easily Nettled by His Critics**  
(BY CARL AND ASSOCIATED PRESS)  
BERLIN, March 8.—President Von Hindenburg consistently has refused to avail himself of the stringent slander and libel laws protecting officials of the republic. The attacks on him are far less virulent than those leveled against the late President Ebert, and a good many of them come from members of his own party, but the President is not easily nettled. A detective, seeking evidence against George Paulus, a Stettin coffee merchant, for asserted violation of the pure food laws, reported that Paulus had threatened to shoot the police commissioner. "Even the President can go to hell," the detective reported Paulus as saying. The police commissioner promptly filed suit for slander. President Von Hindenburg laughed off the suggestion that he make a complaint, and intimated that the police commissioner was a bit too thin-skinned. Airplane passenger service between Koenigsberg, Memel, Riga and Stockholm was continued all winter instead of being suspended between autumn and spring as previously.

**TEXAS COLD TO "MA" FERGUSON**  
*Candidacy Announcement Quietly Received*  
*Woman Executive Says Job too Large for One Person*  
*"Jim's" Organizing Ability May Figure in Campaign*

(EXCLUSIVE DISPATCH)  
AUSTIN (Tex.) March 8.—Gov. "Ma" Ferguson's formal announcement for re-election seems to have created no great outburst of enthusiasm on the part of the Democrats of Texas. The Fergusons have a certain following that may be depended upon to support them under any and all circumstances. The number of these unshakable political adherents has been pretty well established by the votes cast in past elections. According to best estimates this assured vote is around 100,000. To this was added many other thousands in the election of two years ago, because of the fact that the Ku Klux Klan issue was involved. It is the expressed belief of close political observers that the administration of Gov. Ferguson has not gained many new adherents to her fixed following and that whatever gains in this respect that may be made will have to come as a result of the campaign which her husband, Jim Ferguson, is to wage in her behalf. One of the several interesting features of her announcement for Governor is that in which she comes out into the open and declares that the office is too big for her to handle alone and that she needs Jim's aid. She says no one man or woman is capable of running the office without outside assistance. Although former Lieut. Gov. Lynch Davidson of Houston, and Mrs. Edith Williams of Dallas are avowed candidates for Governor, the race is expected to quickly

**LANDS GIRL AS STOWAWAY**  
*Japanese Steamer Carries American Who Bought Life of Adventure*  
(BY CARL AND ASSOCIATED PRESS)  
HONOLULU, March 8.—The Japanese steamship Kora Maru, which left San Francisco the 2nd inst., brought as a stowaway Miss Cornelia McAllister, 153 Carl street, San Francisco. Miss McAllister, who is 21 years of age, was born at Atlanta, Ga., and is a graduate of a high school at Albuquerque, N. M. She was allowed to land because she was an American, and plans to obtain work and remain. The desire for adventure and to see Honolulu was Miss McAllister's explanation of stowing away on the Japanese liner. The narrow down to Gov. Ferguson and Atty-Gen. Dan Moody. The way things look now, as viewed from an impartial standpoint, Moody will win by a good majority, and it is regarded by some persons as not improbable that he will get a majority of all the votes cast in the first primary which is to be held the last Saturday in July. It is admitted that should Davidson stay in the race, the anti-Ferguson vote might be so divided as to give Mrs. Ferguson the lead in the first primary. If this should happen, the contest would have to be decided in the second primary. The lines between the Fergusons and Moody are clearly drawn. The Fergusons boldly uphold the acts of the State Highway Commission and condemn the prosecution of road construction companies for asserted fraudulent contracts. Moody, on the other hand, instigated the investigation of the Highway Commission which was followed by the resignations of Chairman Frank Lanham and Joe Burnett, both Ferguson appointees, from that body. Moody filed suits against several companies that had obtained highway contracts at asserted exorbitant prices and one of them paid back \$600,000 of excess profits which it had obtained under these contracts. Other suits are pending. It is apparent this far in advance that the campaign will be full of mud-slinging. Jim Ferguson was never known to stand back when it comes to calling a spade a spade and it is practically certain that he will open up on Moody from the very start. Moody's record, however, is clean as a hound's tooth—politically and personally. He is only 28 years of age, and has been an ardent church worker from his young boyhood days. Ferguson's main point of attack will be Moody's prosecution of the road company contract cases. The way Ferguson has it figured out the State lost about \$600,000 by winning the case against the American Road Company, notwithstanding the fact that Moody recovered \$600,000 in that suit. In at least three respects the Fergusons have an advantage over Moody. In the first place, Jim is said to have an abundance of money to spend in his wife's race; secondly, he is recognized as the best campaign organizer that the Democratic party in Texas has produced in many years, and thirdly, he has no equal on the stump. Moody is a poor man. Unless his friends put up the money for him or he obtains it from some other source, he will be unable to do much in the way of making an active campaign.

**KRESGE COUPLE MAY DROP SUIT**

Reconciliation of Millionaire and Wife Expected

Action for Prenuptial Cash Pact Adjudged

Says She Wanted \$10,000,000 for Cheery Greeting

(EXCLUSIVE DISPATCH)  
NEW YORK, March 8.—The suit of Mrs. Doris Mercer Kresge to recover \$10,000,000 from her husband, J. S. Kresge, wealthy chain-store owner, over an asserted prenuptial agreement, began before Supreme Court Justice Wagner today, and then adjourned until tomorrow with a hint of reconciliation.

After counsel made their opening addresses Mrs. Kresge took the stand, but before any questions were asked the attorneys—Nathan Burkan for her and Max B. Steuer for Mr. Kresge—went to the bench and conferred for half an hour with Justice Wagner. Then the adjournment was announced with a statement that an attempt will be made at reconciliation.

Mrs. Kresge, a brunette, 31 years of age, wore a broadcloth suit trimmed with a chin-chin collar, and a turban hat, when she stepped to the witness chair. She appeared at ease while attorneys and judge talked in low tones.

**GIVEN 2500 SHARES**

Nathan Burkan, counsel for Mrs. Kresge, outlined the nature of the suit, saying that although Kresge had given her 2500 shares of stock before they were married he made an agreement to give her 2500 more upon their marriage on April 14, 1924, after the first Mrs. Kresge had obtained a divorce.

Max B. Steuer, counsel for Mr. Kresge, said in his opening: "At the time Kresge turned over to Doris Mercer the 2500 shares of Kresge stock, then worth at least \$1,000,000, he was not in a position to marry her. He felt that in the event of his death in such circumstances he ought to provide for her. Well, he did not die, but on the contrary, after the first Mrs. Kresge got a divorce he proceeded to marry Doris Mercer. Both had had matrimonial experience before (she having been divorced Percival D. Harden) and so they drew up an antenuptial agreement in which he stipulated that the 2500 shares of the Kresge stock which he had intrusted to her before their marriage should be hers absolutely. If she had not been a grasping woman that would have been the end of it.

**BEGAN TO POUT**

"But she was always asking for more and more stock. She wanted more money. She began to pout. She would not even say 'Good Morning' to her husband. At last Kresge decided to send for her brother, a clergyman living in Pittsburgh, and ask if he would intercede with his sister to the end that she would treat him kindly and perhaps bring about a reconciliation."

"And what do you suppose the brother was able to accomplish? After having had an interview with his sister, he said to Kresge: 'I can't promise, but I think that if you would give Doris \$10,000,000 in cash, it might put her in a frame of mind in which she would consent to talk to you again.'

"Just think of it! Wanted Kresge to pay \$10,000,000 cash in the expectation that thereafter he might get a pleasant 'Good Morning' from his new wife. There was to be no assurance to go with the \$10,000,000 in cash.

"It was then that Kresge began to realize that all of Doris Mercer's previous pleas for more stock, more money, always more stock—that those pleas convinced him that she and the grasping group around her cared more for Kresge's stock than Kresge."

**Magnus Johnson Slated to Lose Senate Contest**

(BY A. P. NIGHT WIRE)  
WASHINGTON, March 8.—A unanimous decision against Magnus Johnson, former Farmer-Labor senator, in his contest for the seat held by Senator Schall, Republican, Minnesota, was reached today by a Senate elections subcommittee.

A report embodying this decision will be prepared for submission to the entire committee, which, in turn, will make its recommendations to the Senate, where the contest must be decided finally.

**AIR FIELD FOR DOLLAR**

Seattle Flying Ground Assigned Navy for Nominal Sum

(BY A. P. NIGHT WIRE)  
WASHINGTON, March 8.—The Sand Point flying field near Seattle became the property of the Navy Department today when deeds to the 400-acre tract were delivered to Secretary Wilbur.

A delegation which presented the deeds was headed by the two Senators from Washington and included Representatives Miller and Bradley of that State, Col. H. A. Hanson, Deputy President of the King county, Washington, and J. J. Underwood, representative of the Seattle Chamber of Commerce.

The property was donated by citizens and by King county and becomes the naval air station for that part of the North Pacific Coast. The government paid \$1.

**HORSES REMEMBERED**

(EXCLUSIVE DISPATCH)  
TUCSON (Ariz.) March 8.—That the horse is not entirely forgotten is shown by the will of Mrs. Anne Olsen, who has left \$500 to the Tucson Humane Society, to provide watering places for horses and dogs. To the Tucson chapter of Daughters of the American Revolution the will gives \$250.

**MURDER SUSPECT CAUGHT**

Milo Eggers, Who Made Sensational Escape in San Francisco, Trapped in Tacoma

(BY A. P. NIGHT WIRE)  
TACOMA (Wash.) March 8.—Milo Eggers, notorious fugitive, was captured here early this morning in a basement apartment where he had been living with his wife.

Eggers has been the object of a nation-wide search since his escape from Federal officers in San Francisco on January 28, 1925. In this escape his brother, Ariel, was killed by Deputy United States Marshal Donnelly.

More than twenty Tacoma police officers participated in the capture of Eggers, which was planned with elaborate care. A dozen officers armed with shotguns surrounded the apartment. A squad of men with tear-gas bombs and automatic rifles surrounded the apartment shortly after 11 a. m., but kept in hiding. At 12:30 the main body of officers arrived on the scene with Captain of Detectives Strickland in charge. When it was established that every avenue of escape was guarded, Capt. Strickland entered the building and rapped on the door of Eggers's apartment.

"Come out, Eggers, the game is up!" he demanded.

At first Eggers declared that was not his name, but on looking out of his apartment window and seeing the force he had to cope with, he surrendered.

According to records on file at police headquarters here, Milo is wanted by the Canadian government for four men during his hi-jacking activities in Canadian waters.

The escape of Eggers from Federal authorities in San Francisco, when his brother was shot to death, was attended with many spectacular details. It is charged

**BRITISH DOCTOR RAPS WILLOWY FIGURE FAD**

(BY CABLE AND ASSOCIATED PRESS)  
LONDON, March 8.—The efforts of the young miss of 1926 to look willowy were criticized by Sir Bruce Porter, consulting physician of the American relief administration, after the way, in a London speech. "Why girls want to look like weak and waxy young men, I can not imagine," he said, "but they will get that figure, and with it, indigestion and a greater risk of consumption, why should the fair and strong-wax try to copy the worst points in young men?" Sir Bruce declared it was more than a tragedy to see so many girls "yet willowy" figures. "Do not let your daughters cultivate that figure," was his advice to mothers. "The craze will not last and it does not make for a happy old age, if they ever reach it."

**FILMS BID FOR BERLIN AND BRIDE**

Motion-Picture Concern Declared Ready to Offer Mackay Contract Also

(EXCLUSIVE DISPATCH)  
NEW YORK, March 8.—Irving Berlin and his bride, the former Ellen Mackay, now honeymooning in Spain, may record the events of their romance in motion pictures with their respective wives playing the leads and with Papa Clarence H. Mackay portrayed as the villain.

Fortified with motion-picture rights to Irving's latest songs, "Remember" and "Always"—melodies which his courtship of Miss Mackay inspired—the Columbia Pictures Corporation is now endeavoring to sign up the Berlins.

The London agent of the cinema company left for the Madeira Islands to submit the proposition to the couple. It was announced here. He has instructions from President Jack Cohen to agree to any terms the Berlins stipulate.

In the play, "Remember," which is about to be filmed, the plan is to portray the life of Berlin from his boyhood to his marriage to Ellen Mackay. The play is a love story of a poor boy who becomes a millionaire through the help of a girl who loves him.

Cohen declared his company is ready to offer Papa Mackay a contract, too.

"Some day Crimson Gulch may be a great big town like Chicago," "I hope so," answered Cactus Joe. "The little old Gulch is wicked enough as it is."—(Washington Star.)

**BANK OFFICERS FACE FEDERAL INDICTMENT**

(EXCLUSIVE DISPATCH)  
TUCSON (Ariz.) March 8.—An indictment with fourteen counts has been found by the Federal grand jury against Webster H. Land and Hyrd Brooks, officers of the Tucson National Bank, which closed its doors about three years ago. Former grand jurors found 160 indictments against Land and Brooks, but denunciations were sustained to all but seventeen.

**French Nerves Badly Strained, Poet Declares**

(BY CABLE AND ASSOCIATED PRESS)  
PARIS, March 8.—France is in a state of badly strained nerves, asserts Louis Marcelleau, poet and journalist, in explanation of recent phenomena indicating high tension among the people. He blames the politicians in and out of Parliament for having reduced the country to a state of irritability that can only be calmed, he believes, by some form of violence.

He cites two recent incidents which he considers typical. The favorite in a horse race got off to a bad start and was beaten. Disappointed backers pulled the jockey from his horse and beat him nearly to death. Race-track crowds in France often have shown feeling against a losing jockey, but not such uncontrolled savagery.

An American film shown at Bordeaux portrayed King Louis XI and the Dauphin in a manner the French audience considered unfattering to those of their own ages. Such a disturbance arose after the police had to clear the house.

## FARMER RELIEF PLANS SHAPE UP

National Board Provided in Bill Being Written

Equalization Fee Also Agreed on as Necessary

Middle Westerners and House Committee Confer

(BY A. P. NIGHT WIRE)  
WASHINGTON, March 8.—The middle-western farm delegation and the House Agriculture Committee with whom they have been conferring, appear to be making definite progress toward a farm-relief program.

It was indicated tonight that the bill being written by experts of the Congressional legislative drafting service probably will retain these two central features:

A national Federal farm board, with authority to solve crop problems through the farmers' co-operative organizations.

**EQUALIZATION FEE SOUGHT**  
An equalization fee—collected from the manufacturer, processor or exporter, but deducted by them from the price paid the farmer—to provide a fund to insure adequate prices for surplus crops.

The measure is being drafted by degrees as the hearings proceed. Whether it will contain a drastic tariff provision, empowering the President to declare an embargo on any crop, has not been determined. Chairman Hays of the Agriculture Committee has declared a relief bill would be useless without such a clause.

Representative Ketchum, Republican, Michigan, a member of the committee, today added to the list of pending farm measures a bill to station "agricultural attaches" at strategic points throughout the world, "to assist American farmers to adjust their operations and practices to meet world conditions."

**DELEGATE CROSS-EXAMINED**  
William Mirth of Columbia, Mo., chairman of the corn-belt committee, which came to Washington a week ago, was subjected to a severe cross-examination at today's Agriculture Committee hearing.

When Representative Fort, Republican, New Jersey, suggested that the delegation was "asking Congress to force the farmers to do what they have been unable or unwilling to do themselves," Mr. Mirth replied that Congress was asked "to deal with a situation so serious we haven't time to organize to meet it ourselves."

Mr. Fort added that it was sought to compel the farmers to work entirely through organizations and, by the Federal taxing power, to pay a fee for marketing their crops whenever a surplus was declared by the proposed Federal board. Mr. Mirth contended that that was "not a fair way to put it, in view of the emergency."

**English Wives Seeking 20,000 'Lost' Husbands**

(BY CABLE AND ASSOCIATED PRESS)  
LONDON, March 8.—There are approximately 20,000 "lost" husbands in England, and although rewards have been offered, no news of them can be obtained. The boards of guardians in various localities, who are responsible for maintenance of the dependents of missing men, are eager to find these husbands because the authorities are spending many thousands of pounds on "poor relief" for their wives and families.

The guardians say that many of the men found it impossible to settle down to humdrum life after their war-time experiences, and have taken to the roads, "knowing that their wives and children would be cared for by the authorities."

## WINE FIFTEEN CENTS A QUART

German Growers Anxious to Convert Stocks Into Money

(BY CABLE AND ASSOCIATED PRESS)  
BERLIN, March 8.—Thousands of gallons of two and three-year-old wine are going begging at 15 cents a quart in the wine-growing valleys of the Moselle, Saar and Ruhr, where the growers are desperately in need of money and are willing to convert their stocks into cash at almost any figure. Even at 15 cents a quart, which is exclusive of the federal tax of 20 per cent, there are few buyers.

Plantations having as high as 40,000 vines are being leased for a season, the owner asking little more than that the renter keep up the property.

**FOUR MORE ARRESTED IN STOCK CASE**

Officials Think They Have Nearly All Operators in Assorted Confidence Game

(BY A. P. NIGHT WIRE)  
DENVER, March 8.—With the arrest today of four more persons believed to be implicated in Denver's latest wholesale confidence game involving between \$200,000 and \$300,000, and the issuance of extradition papers for six others held at East Las Vegas, N. M., authorities tonight believed they had rounded up the majority operating for Kenneth, Lewis & Co., asserted fraudulent stock concern of this city.

Mr. and Mrs. V. B. Richmond, M. A. Zeller and George Nelson were arrested today at Pueblo and will be returned to Denver. All are said to have admitted to Chief of Police O'Grady of Pueblo that they were employed by Kenneth, Lewis & Co., but that they were innocent of any fraudulent manipulations. According to advice from Pueblo, the four refused to accept ratons at the jail and are maintaining a hunger strike.

Word tonight from East Las Vegas, where Mr. and Mrs. Kenneth Joseph, Mr. and Mrs. Lewis Bass, A. J. Keist and Royal Sien were arrested, was that all will fight any attempt to extradite them.

Denver police tonight telegraphed the Los Angeles department asking the arrest of Mrs. Virginia Lennington who left here last Friday after unwittingly "flipping" officers regarding the direction in which the wanted officials of the Denver concern were headed.

Trunks and other baggage of Richmond are being held at Los Angeles, where he planned to go from Pueblo.

Several persons today applied at the office of the District Attorney, postal officials and police, asking that they be permitted to sign affidavits regarding the fraudulent dealings of the Denver firm.

**FATHER OF CALLES MAY BE CANDIDATE**

(BY CABLE-EXCLUSIVE DISPATCH)  
MEXICO CITY, March 8.—Francisco Elias called father of President Calles, is being mentioned as a candidate for the Governorship of the State of Sonora at the coming elections there, the newspapers announce. Other candidates are Gen. Eduardo C. Garcia, formerly chief of staff of the President, and Augustin Aguila, a general, although the elections are some time away, campaigning has already started.

**Business tendencies are on the upgrade in Sioux City, according to Sioux City bankers who report farmers are paying their notes with less difficulty this year than on any March 1 in the last four years. This is due, it is reported, to the high prices that are being realized for live stock.**

**F. J. Ciley of Spencer, has been appointed to act as receiver for three Emmet county banks which failed recently. They are the Provident Trust and Savings Bank of Estherville, and Granger and Huntington Savings Bank at Huntington.**

**KANSAS CITY**  
KANSAS CITY, March 8.—R. Kirk Aikew and C. H. Whitehead will leave Monday for a motor trip to Southern California.

**The St. Joseph Gazette has been sold for \$125,000 to Max M. Levand, former general manager of the Kansas City Post, and later owner of the Casper Herald and the Salt Creek Journal in Wyoming.**

## NICOTINE DIET FIVE PIPES DAILY

She's Flapper in Everything but Dress

Grandma Hayes, 92-year-old Flapper.

(EXCLUSIVE DISPATCH)  
ALSTON (Neb.) March 8.—Ninety-two-year-old "Grandma Hayes" of this city, attributes her long life and good health to the fact that she smokes five pipefuls of tobacco daily.

She is a modern flapper, she declares, with the exception of her age and dress, but try as she will, she cannot adapt herself to the modes of dress of the twentieth-century maidens.

In the last forty-five years she has never missed a day smoking her pipe five times, no more, no less.

**MIDDLE WEST NEWS IN BRIEF**

(EXCLUSIVE DISPATCH)  
INDIANAPOLIS, March 8.—Mr. and Mrs. Sylvester Johnson will leave for Los Angeles the 14th inst.

## SENATE ATTAINS GRAZING PEACE

Agreement Covers Use of Public Domain

Board Will be Provided to Solve Problems

Rights of Local Interests to be Recognized

(BY A. P. NIGHT WIRE)  
WASHINGTON, March 8.—Final agreement on the question of regulating grazing on the public domain was reached in a conference today between Chairman Stanford of the Senate Lands Committee and Secretary Wood of the Interior.

The rights and opinions of local interests in the creation of grazing districts will be recognized under the agreement. Grazing boards will be provided to advise on grazing problems but hearings in disputed cases would be held before registrars of local land offices instead of before such local boards as would be provided in the pending Stanford bill dealing with the subject.

The agreement was described as a compromise between the conflicting forces which have been engaged with the problem.

The agreement is the culmination of the first efforts to harmonize the differences between western Senators on the Lands Committee and the Interior and Agriculture departments with regard to the principles to be applied in grazing regulations.

Negotiations are still under way between representatives of the committee and of the Agriculture Department with regard to regulating grazing in the national forests. The agreement between the committee and the two departments, Chairman Stanford believes, will eliminate all opposition to grazing regulations except by eastern interests, which have opposed any form of legislation on the subject.

P. R. Marshall of Salt Lake City, secretary of the National Wool Growers Association, told the committee in its hearings today that the operation of the proposed grazing legislation would not interfere with homestead laws, it recognizes, he said, the principle of putting all public lands to the highest use.

**PATENT ON RAINBOWS PERMITTED**

Hosiery Company Wins Right to Put Gold Designs at Top of Stockings

(EXCLUSIVE DISPATCH)  
NEW YORK, March 8.—Even the rainbow may be patented for certain purposes, according to a decision by United States Commissioner of Patents Robertson, which gives a company the exclusive right to use a certain color.

The company was the Gotham Silk Hosiery Company, Inc., which sought to protect a stripe of gold on silk hose sold as "Gotham Gold Stripes" hose. For three years they have been seeking to prevent the Van Raalte Company from placing a stripe of nearly the same design on their hosiery, but white instead of gold.

The announcement was made by Darby and Darby, patent attorneys acting for the Gotham Silk Hosiery Company, Inc.

The Gotham company, owners of a trademark registration for "a gold stripe near the top of the stockings," opposed an application made nearly three years ago by the Van Raalte Company for registration of "a white stripe placed adjacent to the upper edge of the stocking." The contention was that the registration would conflict with the "gold stripe" and cause confusion in the public mind.

After much litigation the case finally reached the Examiner of Interference, who denied the Van Raalte Company's request for registration, ruling that the two stripes were alternatives and would lead to likely confusion.

The decision was verified by the Commissioner of Patents on appeal, who pointed out that in a similar case involving the trademark of wire cable by a strand of distinctive color, it was ruled that "a rival dealer may not appropriate another's mark by merely changing its color."

**ORPHANS IN DEMAND DURING DAYS OF '49**

NO ASYLUMS NEEDED TO CARE FOR HOMELESS CHILDREN, OFFICIAL ASSERTED

(EXCLUSIVE DISPATCH)  
SACRAMENTO, March 8.—It was easier to be an orphan in the days of '49.

At least, if old writings in the possession of the State Library here are to be trusted, the demand for orphan asylums to care for the homeless waifs no one else wanted. Making an entry in his journal about the time of the gold discovery, the first American alcalde, or Mayor, of Monterey, wrote: "There is no need of an orphan asylum in California. The amiable and benevolent spirit of the people hovers like a shield over the helpless. The question is not, who shall be burdened with the care of an orphan, but who shall have the privilege of rearing it."

He attributed the more rigid requirements of audiences and the resultant necessity of real talent and proper training on the part of the girls.

"Why, today more ability is required of a chorus girl than was demanded of a principal five years ago," he said.

MORE THAN HALF A CENTURY OF PROGRESSIVE BANKING SERVICE

## Romances from the Ledgers of the Oldest Bank in Southern California

You ordinarily think of a bank's ledgers as nothing but columns of figures.

When read with insight, they are in reality histories and biographies of fascinating interest.

There's an entry on the books of this bank in which is condensed the story of how the first oranges came to be shipped from California. There is another that reveals the birth of street railway transportation here—still another that tells how a few thousand dollars helped, in a vital way, to further the great cotton industry of the Pacific Southwest.

When made they were just bookkeepers' entries! Only now, after ten, twenty, fifty years, can they be appreciated in all their far-reaching import.

Out of the scores of such instances, we have selected several of major importance. To throw them out in bold relief, we have also gathered last minute figures on the industries whose early day struggles they suggest—painted the pigmy and then the giant it has become.

These word pictures are all gleaned from our own experience, the intimate knowledge and contact this bank has had with Southern California business and industry for over half a century. And they will be presented to you, one each week in the columns of this paper.

For their intense interest, their historical importance and their high informative value, a most unusual series. You will find them well worth reading.

NOVELTIES FORECAST  
IN LONDON FASHIONS

LONDON, March 8.—Forecasts of spring fashions in London indicate many novelties. The latest hint from the arbiters is that skirts will be as short as ever, bodices a mere wisp of tulle, but that long sleeves will carry almost as much material as the dress itself. Huge square cuffs reaching to the hem of the dress are predicted for smart attire, and new models are already seen with enormous puffed melon sleeves, striped with contrasting materials, which serve as both cloak and sleeve.

BOB HELD BALDNESS CAUSE

NEW YORK, March 8.—Women who bobbed their hair seven years ago have 50 per cent less hair now than they had then. Frank Parker, hair expert, today told several hundred members of the American Master Hair Dressers' Association. The association opened its two-day annual convention, at which was sounded the keynote, "death to the bob."

Tight hats worn by women with short hair, duplicating the condition to which the common baldness of men is attributed, may be

been checked as emigrants in previous periods are placed at a total of 63,494. Mexican emigrants during the year went chiefly to the United States. They totaled 78,490 of the grand total of 180,507.

Under the occupation column, the official figures show that ministers of the gospel of various creeds who came to Mexico during the period numbered 167.

WATERS OF  
RIVER TO BE  
CONSERVED

Work Begins Today on  
Dams and Ditches in Santa  
Clara Bed to Prevent Waste

Active work of conserving the waters of the Santa Clara River will begin tomorrow when ditches and dams for the purpose of spreading the water in the river bed will be begun. By this means the water will be caused to soak into the gravel and so be observed for use in summer.

The first operation will take about two weeks and will be made at Saticoy. When this diversion work has been finished, the waters will be spread at the confluence of Firs Creek and the Santa Clara where similar ditch and dam work will be done. Efforts will be made to prevent any water going to waste now and to leave all that might come down the river later should it rain. Approximately 30,000 acres will be affected by this action.

**ADAMS.** Gifts is a thorny issue for the California Income Taxpayers' Association, says Ernest A. Stewart, president of the association. Ida May Adams is counsel for the association.

The case involves community property rights in California and the point at issue is whether a wife has a vested one-half interest in community property in this state. Since the issues are of moment to the community property question and involve thousands of families, Mr. Stewart believes the case may be decided from the bench. **ADAMS.** With reference to the California Income Taxpayers' Association, says Ernest A. Stewart, president of the association, Ida May Adams is counsel for the association.

The case involves community property rights in California and the point at issue is whether a wife has a vested one-half interest in community property in this state, even though she has no permanent interest in the legal proceeds and invest thousands of dollars in the case. Stewart believes the case will be decided in his client's favor.

The case is an appeal from the Superior Court where Judge Albert Lee Stephens originally held that Adams had no vested interest in community property.

**PARAJELS ROBBINS CASE**

The case in some respects is a parallel to the Robbins case recently decided by the United States Supreme Court in the Ninth and Northern California district, in which income taxpayers lost their right for separate returns on community property.

"That case," says Stewart, "was decided by the United States Supreme Court on income and property acquired prior to the effective date of the California amended community property law of 1917. It is now as interpreted by the California Supreme Court had not been decided by the United States Supreme Court when the Federal case was taken into Federal court; and, third, the intent of Congress as to separate income was not the same. Initially California had not been established at the time of the Robbins case. Since then, in the enactment of the Revenue Act of 1921, the Federal law was established in accordance with the intentions of our association."

Miss Adams, who will represent our association today before the State Supreme Court, is due to appear in the Robbins case. It is inclusion of the Revenue Act clause which establishes the right of Congress.

**ADAMS.** "The bill is a bill of the California Income Taxpayers' Association," says Ernest A. Stewart, executive director of the California Taxpayers' Association. "Miss Adams is the counsel for the association."

The case involves community property in California and the point at issue is whether a wife has a vested one-half interest in community property in this state which she can challenge. A momentous interest to the legal profession and involve thousands of families is at stake. The outcome may be decided from the bench. The case is an appeal from the Superior Court where Judge James H. Hahn ruled that the wife has a half-vested interest in community property.

**PARAJULES ROBINS CASE**

The case in some respects is a parallel to the Robbins case recently decided by the California Supreme Court; on appeal from the Northern California district, in which income taxpayers lost their right to a refund on the basis of a vested right of interests in community property.

"This case," says Stewart, "was unsuccessful because, first, it involved income and property acquired prior to the effective date of the community property code provision of 1917; second, the California Supreme Court has not been established before the Robbins test case was taken into Federal court. Congress as to separate income returns by the wife in California had not been established at the time of the Robbins case. In the enactment of the Revenue Act of 1926, this intent has been contained in our association."

"To Miss Adams, who will represent the case, we declare before a State Supreme Court, is due of the credit for obtaining inclusion of the Revenue Act of 1926, which establishes the intent of Congress."

**RETURNS FROM WASHINGTON**

Miss Adams returned from Washington yesterday. She was present in Congress at the time the Revenue Act was passed and represented California Senators and representatives in the matter of the Revenue Act. She was, according to Mr. Stewart, called in Washington she was admitted to practice before the Supreme Court. She was there she sought a review of the Robbins case in an effort to establish the community property question in the Robbins case.

Obstacles in the Robbins case have been removed or overcome by the new case, declares Mr. Stewart. Community property law, 1917, and the intent of Congress, 1926, will now be possible to go on court and obtain the refund of \$168,000,000 if the Supreme Court rules in favor of the interest in community property," said Stewart. "New cases will be filed just as soon as a favorable decision is obtained."

**Advantages of Tax Exempt Bonds**

THE following table indicates the approximate yield which taxable bonds must return to equal the return from tax free bonds yielding 4 1/4% and 4 1/2%.

Income (Yielded to Bondholder)	4 1/4%	4 1/2%
\$20,000 to \$25,000	5.25	5.35
\$25,000 to \$30,000	5.31	5.42
\$30,000 to \$35,000	5.38	5.50
\$35,000 to \$40,000	5.45	5.57
\$40,000 to \$45,000	5.52	5.64
\$45,000 to \$50,000	5.59	5.72
\$50,000 and over	5.67	5.80

Municipal bond prices compare favorably with the highest grade rail and corporation bonds on the basis of security of principal and income. Tax exemption offers an additional value to investors in the surtax class.

**Proceeds Will Finance New Plant Construction.**

An issue of \$500,000 Consumers' Rock and Gravel Company first mortgage 7 per cent serial gold bonds, due serially September 1, 1927, to 1933, inclusive, will be offered today by Dean Witter & Co., and the bond distributor of the Bank of Italy, at prices to yield from 6 per cent to 7 per cent, according to maturities.

The Consumers' Rock and Gravel Company was incorporated in 1912 and came under the control of the present stockholders and management in the latter part of 1913. Since that time the company has shown large earning power on its invested capital and through a conservative dividend policy and reinvestment of earnings, its properties have been developed to their present daily capacity of more than 8000 tons of crushed rock and gravel and screened gravel and sand.

**VALUABLE LAND OWNED**

The company owns in fee 14.14 acres of land situated at the corner of Twenty-sixth and South Alameda streets, Los Angeles, which is adapted to its needs and is considered valuable for industrial purposes. This land is valued at \$347,347.44, and the plant and equipment at \$173,500.

Four plants in the San Fernando Valley together with 120 acres of land owned in fee and a lease on 838 acres of ground are independently appraised at \$1,034,780.

The company intends to use approximately \$350,000 of the proceeds of the bond issue for the construction of a new plant with a yearly capacity of 1,000,000 tons of material and for improvements and betterments to existing plants so that the present property values amounting to \$1,760,637 will shortly be increased to approximately \$2,110,637, or more than four times the amount of the bond issue.

**BUSINESS PHILOSOPHY**

BY WILLIAM FEATHER

IF AN idea or a selling argument can be put so that a 10-year-old boy can understand it, that is the way it should be presented. No matter how big the idea, the simpler it can be presented the better, even though the readers have minds comparable to that of Mr. Einstein.

But writing for a 10-year-old mind is not easy writing. To present real ideas in such a way that anyone can understand them requires genius.

Brilliant minds do not resent simplicity in presentation. But they do resent weak, silly ideas.

**COAST IRON TRADE TONE OPTIMISTIC**

**Heavy Buying of Steel Slow in Starting, But Outlook is Promising**

BY DON PARTRIDGE

Associated Editor Western Construction News

General business conditions along the entire Coast are considered healthy, although heavy buying of steel products has not yet begun. Much new work is in sight and the trade is optimistic. Outstanding among bookings was the award of the Russ Building, San Francisco, involving 3500 tons, to the United States Steel Products Company.

Featuring the plate market was the award of twenty-two tanks, involving 2020 tons, by the Union Oil Company, Los Angeles, to the Western Pipe and Steel Company. Among other awards were 425 tons for the Pan American Petroleum Corporation, Los Angeles, and 300 tons for a lock-bar pipe line at Tacoma, the latter going to the Williams Iron and Steel Company. Pending business exceeds 19,000 tons, nearly 13,000 tons of which is needed for the San Diego pipe line. Most plate producers are holding to the 2.30-cent c.i.f. price but some business has been booked at 2.25 cents. On large, desirable tonnages, carrying extra, it is thought that 2.25 cents could be obtained.

More structural-steel tonnage was placed this week than at any time since the award of the Carquinez Straits bridge, which required 16,000 tons, over a year ago. The additional award of 1,000 tons to the Russ Building, San Francisco, Moore Drydock Company took 310 tons for the Battery bridge in Oakland. Western Iron Works secured 525 tons for the Hale Bros. addition, San Francisco. Llewellyn Iron Works booked 125 tons for the Ingwood Telephone Exchange, Ingwood, and Dyer Bros. were awarded 200 tons for an apartment-house at Pacific and Weber streets, San Francisco. Pending business calls for over 12,000 tons, the newest inquiry involving 410 tons for the Army Corps of Engineers. Prices are firm at 2.35 cents c.i.f. as a minimum.

**Frank G. Shattuck Company Issues Annual Report**

Net profits of the Frank G. Shattuck Company for the year ending December 31, last, after all charges including depreciation, were \$1,214,454, compared with \$1,683,907 in 1924, according to the company's annual report issued recently. This was equivalent to 4.03 share and 1.92 on the common stock outstanding, or twice dividend requirements, as against 3.53 a share in 1924.

The company operates a chain of restaurants and candy stores under the name of Schaffitz, and each department has a large volume of business. The report of the company, which until recently had been strictly a family-owned concern, showed total sales of \$11,493,401 in 1925, as compared with \$10,689,128 in 1924.

During 1925 the company began construction of a large factory, to cost approximately \$1,000,000, in New York City and also an additional money out of earnings on other new properties.

The balance sheet of the company on December 31, last, shows total assets of \$7,389,034, including current assets of \$1,368,473. Current liabilities amounted to \$971,698. The company has no bonded debt, no preferred stock and no bank loans.

**Industrial Firm Buying Continues to Hold Lead in Volume of Business**

Industrial buying continues to occupy a major place in the business of the electrical industry, reports Electrical World, New York. Central-station companies now are requesting more quotations from manufacturers, several propositions known to have been awaiting approval having apparently been settled. Sales to such companies consist chiefly of transmission and distribution line materials.

On the Pacific Coast contractors and lumber companies are buying in good volume, but power company purchases have been comparatively small. Dealers report good business in percolator sets and toasters, considering the season, and radio accessories also are selling well, especially rectifiers and loud speakers.

Several orders were placed for materials for southern properties, including one for a 13,600-horsepower turbine unit another for several thousand dollars' worth of distribution transformers and another for street-lighting equipment. An order for \$1,000,000 worth of apparatus for street and rapid-transit railways was placed in the New York district, where industrial buying continues steady. In New England many inquiries, covering a wide range of electrical supplies and equipment, are reported as being received by manufacturers, and a number of interesting orders for transformers for substitution extensions have been placed.

**COTTON COMMITTEE ACCEPTS NEW REPORT**

Recommendations embodied in the report made by the cotton committee of the Los Angeles Chamber of Commerce were yesterday adopted by the California Cotton Growers' Association in a meeting here. The report was prepared by a committee of which Frank C. Mortimer, vice president of the Citizens' Bank, was chairman.

Other members of the committee were H. F. Hulse, engineer and economist; W. S. Dorman, president, Crescent Creamery Company; C. H. Howland, agriculturist; C. C. Selden, manager, George H. McFadden & Bros.; Gordon White, manager, Globe Grain and Milling Company; Orin E. Monette, president, Bank of America, and F. L. S. Harman, assistant secretary, Los Angeles Chamber of Commerce.

**"All Cared For"**

*A chapter from the story of William Dawson's Estate*

"Read the Will and then I'll explain how I provided for you," said William Dawson to his wife, Mary.

"This sounds very legal and complicated," she commented. "I'm almost afraid of it. What do I have to do?"

"Nothing at all."

"You mean—I wouldn't have to run your business or anything like that?"

"Do you think you could?"

"I'd try."

"Yes, and be worried to death. See! I've left all my property in Trust. You will receive a regular income from a Trust fund. Even the business will be handled by the corporate executor I have named in my Will until William, Jr., is ready to take it over. If you're not going to lose all your property as John Randall's widow did—every last cent. You'll have income—and no worry."

"And the children?"

"All cared for."

"William, you're a genius. I wonder if Mrs. Ella Jane Townsend's husband has made a Will. I'll ask her."

When William Dawson was alone he chuckled aloud.

"I'll bet Ella Jane's husband hasn't made a Will yet. But I also bet he'll make one now."

Will you leave your wife and children an income for life—or of financial worry for life? The difference is often a mere matter of leaving property in Trust through a Living Trust or a Trust provided for in your Will.

**HISTORY AND BUSINESS** The Consumers Rock and Gravel Company was incorporated in 1912 and came under the control of the present stockholders and management in the latter part of 1913. Since that time the company has shown large earning power on its invested capital and through a conservative dividend policy and reinvestment of earnings, its properties have been developed to their present daily capacity of over 8,000 tons of crushed rock and gravel and screened gravel and sand.

**PROPERTIES** The company owns in fee 14.14 acres of land situated at the corner of 26th and South Alameda streets, Los Angeles, which is splendidly adapted to its needs and which is also exceedingly valuable for industrial purposes. John F. Kennedy has conservatively valued the land alone in this tract at \$347,347.44, and the plant and equipment with a valuable lease on 6 acres of ground for excavating purposes is valued at \$378,500.

Four plants in the San Fernando valley together with 120 acres of land owned in fee and a lease on 838 acres of ground are independently appraised by Mr. S. K. Dahl, mining engineer, at \$1,034,780.

The company intends to use approximately \$350,000 of the proceeds of this bond issue for the construction of a new plant with a yearly capacity of one million tons of material and for improvements and betterments to existing plants so that the above values amounting to \$1,760,637 will shortly be increased to approximately \$2,110,637, or more than four times the amount of this first closed mortgage bond issue.

**EARNINGS** Net earnings after depreciation, depletion, Federal and local taxes and all other charges for the four years ending Dec. 31, 1925, as certified by Messrs. Haskins & Sells, Certified Public Accountants, have averaged more than three times maximum annual interest charges on this issue and more than five times average annual interest charges. This is without giving effect to the operations of two plants in the San Fernando valley which have recently been acquired. The management anticipates that additional and improvements to be made from the proceeds of this issue will materially increase net earnings.

**SINKING FUND** A sinking fund based on material sold will be provided which will operate monthly commencing May 1, 1926, to retire bonds through purchases in the open market or by call.

**INSURANCE** A bondholders policy of life insurance will be furnished by the Title Insurance & Trust Co. of Los Angeles. Insurance on plants and equipment for their insurable value will be assigned to the trustee for the benefit of the bondholders. In addition, the company carries employees liability, full coverage on trucks and automobiles, and other insurance.

## BOND QUOTATIONS

Liberty Feature

(By A. P. Night Wire)

NEW YORK, March 8. — The strength of United States government obligations and the renewal of selling activities in other parts of the list were the contrasting features of today's irregular bond market. Railroad and industrial issues fell back into the slump which characterized last week's trading. The political crisis in France precipitated further selling of this nation's bonds, resulting in average declines of a point.

The revival of interest in Liberty bonds was credited to the announcement of the Treasury's \$500,000,000 long-term financing on a 2 1/2 per cent basis, the lowest rate since the war. The first, third and fourth 4 1/4s responded by rising to the highest levels of the year, and the other government issues were in brisk demand.

The Treasury's plans met with general approval in banking circles. Among the favorable features which drew attention were the twenty-year noncallable provision, and the fact that holders of this Liberty, for which the Treasury recently made an offer, may invest their proceeds in a long-term bond at virtually the same yield.

Some of the recoveries scored by railroad bonds after last week's drastic decline were swept away again today before another selling attack. Chesapeake and Ohio convertible fell 4 1/2 points to 133, but closed only 3 points lower on the day. Atchafalaya adjustment to Chicago Great Western 4s, Chicago, Terre Haute income 5s, Delaware and Hudson 5s and 7s, New Haven consolidated 4s, and Seaboard, All-Florida 5s were driven down a point or more. Skelly Oil convertible 4 1/4s sagged 3 1/2 points, and fractional declines were general throughout the industrial list.

The public offering of a long-term Catholic church loan in this market will take place tomorrow, when a syndicate headed by Howe, Snow & Bertles will place on sale a \$5,000,000 issue of twenty-year 4 1/2 per cent bonds of the general union of the eight Roman Catholic Church at a price of 93 1/2, to yield over 7.10 per cent.

Following are yesterday's high, low and closing prices of bonds on the New York Stock Exchange and the total of each bond.

## GOOPS!

A Daily Lesson in Manners for Children  
BY GELETT BURGESS

**DON'T TOUCH!**  
There was a sign, when I was young,  
And on my mother's wall it hung;  
And doubtless 'twill amuse you much  
To know it merely said:  
"DON'T TOUCH!"  
You may suspect it is true—  
'T was a Goop, the same as you!

## WIFE CHARGES HEIRESS ELOPES WITH HUSBAND

**Daughter of 'La Salle Street Wolf' in New Sensation Here; Theft of Will in East Reported**

The trail of broken hearts and ruined homes left by John W. Worthington, the "Wolf of La Salle Street," in building his fortune wound again to Los Angeles yesterday when it was learned that his daughter, Alice Worthington, heiress of the convicted embezzler, is accused of having eloped from here with another woman's husband.

While sensational developments were in motion pictures in this city, Chicago dispatches reported that they are at the same address there, where Alice is known as "Mrs. Pike."

A 3-year-old son, Harry Martin Pike, Jr., is here with his mother, Mrs. Gertrude Pike.

"Harry is still my husband as far as I know," Mrs. Pike declared.

Pike was the constant companion of Alice Worthington while she

## BARREL SAVES MAN IN SIX-STORY FALL

A barrel served as a springboard when G. J. Patter, 59 years of age, fell six stories yesterday. He was painting in the rear of the new Orpheum Building when the scaffolding broke.

He struck squarely on the barrel, which broke his fall. As the Receiving Hospital Police Surgeon Sebastian said, not a bone was broken and that he will recover.

head of the slumbering infant last night in her humble home.

PLANNED DIVORCE

"At least he still was my husband a month ago when I received a letter from him in Chicago to the effect that he intended to divorce me. But as yet, so far as I know, he has not done so," she continued.

"Harry and Miss Worthington left here last September, together, in a Moon roadster, driving over the southern route and eventually landing in Chicago," Mrs. Pike said.

The wife, a handsome blond woman, then told how she and Pike had been married in Los Angeles in September, 1925, the ceremony culminating in an impetuous wedding that was then only 15 years of age.

The romance was a happy one until in 1924, according to Mrs. Pike, and it was shattered abruptly on Christmas Eve of that year when she asserts her husband returned to announce that he was "going to leave."

"There was nothing for me to do, no way that I could hold him if he wanted to go, and after he had promised that he would provide for the baby, he left," she declared.

GETS BABY BACK

Pike sent some money for the care of the infant, according to the mother, after he had gone to Chicago last year. For a time the baby was kept by Pike's mother, during which time Mrs. Pike declared she provided as much money as possible for the youngster from her earnings as a nurse.

"In January I could stand it no

longer and I got the baby back. He is with me now and nothing can ever take him away from me again," she declared.

A dancer in Chicago in 1919, the year Mrs. Pike took action to have her husband brought before court to obtain funds for the support of the youngster. Her efforts were started after she had learned of Pike's departure for Chicago in company with the other woman, the knowledge coming from the lips of the babe.

HIS SECOND MARRIAGE

At the time of the asserted desertion, Mrs. Pike declares her husband was employed as a radio salesman and up to a short time before his abrupt departure, he had been a good provider.

He took good care of me and of the baby, except in the matter of buying me the clothes I needed. He never bought me many clothes, she said.

Her marriage with Pike, she said, was his second matrimonial venture. He had previously married a dancer in Chicago in 1919. The first wife, named by Mrs. Pike as a Babe Denis, of Indianapolis, and Pike separated in New York some time later and Pike was later divorced.

Mrs. Pike declared last night that she is not seeking a reconciliation with Pike. She asserts that the knowledge she has gained of his life after he left her and his romance with Miss Worthington, have killed all love she ever held for him.

The mysterious Worthington became more mysterious in Chicago yesterday. This document, disposing of an estate estimated at \$3,500,000, and which was the chief claim of Robert L. Cohan, Chicago attorney, to a \$250,000 share, was stolen during the night of a roof-top deal, Mr. Cohan said. He had left it for safe keeping.

Mr. Cohan said he last saw the will Sunday afternoon when he was talking to newspaper men in his office. At that time, he said, he could produce plenty of evidence to refute the attack made on his story by Miss Alice Worthington, who has stated that her father never made the will and that any such document produced by Cohan will prove fraudulent. And he produced large quantities of blank checks made out by Worthington on European banks and deposits showing billions of marks.

## SHIPPING FATE IN BALANCE

**Momentous Tariff Questions Up to Orient Session; Fight Centers on Trans-shipment Rate**

The prosperity of America's merchant fleet operating to the Orient hinges on the joint meeting of the Atlantic Far East and Pacific Westbound Conference, which convened yesterday morning at the Alexandria for a six-day session for the revision of freight rates and a settlement of differences between member companies. Representatives of all American and foreign lines are present.

Yesterday's developments, while largely routine, indicated that the big fight of the conference will be over the \$5 minimum trans-shipment rates now charged by lines running to the East for all oriental-bound cargo picked up on this Coast after having been brought from the Atlantic by intercoastal carriers. Several companies of the intercoastal conference served an ultimatum that unless the \$5 minimum is abandoned by the 15th inst., with return to the old "fifty-fifty" scale, the objecting member lines will not consider themselves bound by the minimum-rate agreement. Under the "fifty-fifty" agreement the intercoastal and Far East lines divided equally the tariff on oriental transshipped freight, while under the present \$5 minimum of the Far East lines, with rates from the Atlantic to the Orient around \$12 per ton, the intercoastal carriers are left but \$3 per ton.

Good news for consignees and shippers came yesterday when it was revealed that the conference will there will be no upward revision of Far East tariffs. There will, however, be a revision or elimination of the tariff on intercoastal freight now maintained by conference members for freight shipped from an oriental terminus to some other port in the Far East. Both developments indicate a steady of the oriental freight situation.

There will be no action taken by the shipping conference in the impending rate war between intercoastal steamship lines, it was declared yesterday.

Today the representatives will make an all-day tour of Los Angeles Harbor, Wednesday will be given over to business sessions, while Thursday the delegates will visit Pasadena, the foothill district and the Hollywood studios. Final sessions of the conference will be held on Friday and Saturday. Plans of the convention are being handled by Max G. Linder, assistant general freight agent of

## HIGH COURT SPEEDS UP WORK HERE

**State Supreme Tribunal Members Ask Attorneys to Expedite Hearings**

Confronted by an exceptionally large calendar, the State Supreme Court convened here yesterday for a three-day session. In an effort to expedite work, the court requested attorneys to present full and complete records, and several were requested to make more orderly showings.

The court heard arguments on motions in twenty-nine civil cases, and two civil cases and four criminal cases went over because of lack of time.

The case of E. C. Stone, night-watchman convicted of the murder of May and Nina Martin, was continued by agreement until the next Los Angeles calendar. The case of Earl J. Clark, convicted of the murder of Charles Silva at the harbor in a quarrel over a girl, also was continued.

Seven criminal cases are set for today. The case of Charles F. Dillon, Fresno official charged with the embezzlement of \$7500, will be heard.

## DIVORCE AS PROVISO OF WILL FOUGHT

**Condition Contrary to Public Policy Contention in Contest**

A bequest in a will, conditioned upon the beneficiary having obtained a divorce, is contrary to public policy and null and void, Mrs. Francis Mitchell contended in a contest of the will of her mother, Mrs. Francis Buffelen, filed yesterday.

By her will Mrs. Buffelen left her daughter a parcel of Hermosa Beach realty, "provided that at the time of my demise she is divorced from her present husband, Harry Mitchell."

In her contest Mrs. Mitchell declared the condition impossible of fulfillment because neither she nor her husband had grounds for divorce, and that it was plainly contrary to public policy anyway.

She demanded that she be found entitled to this bequest without condition.

## Cassius M. Gay Finds Marriage Serious Indeed

Cassius M. Gay thought he was too young for married life—after he was married. William Helen Gay told Judge Gates. So, he stepped out from under the lead, she declared.

"How old was he?" Judge Gates wanted to know.

"Twenty-five years," Mrs. Gay said.

"Plenty old enough," observed the court. And then, Gay, having been found old enough to support a wife, the court relieved him of that responsibility by giving Mrs. Gay the decree she asked.

## COUNTY ENGINEERS TO HEAR GOODCELL

"Ethics of Engineers and the Relation of Engineering to Modern Civilization," will be the subject of an address by Rex B. Goodcell, to be delivered Thursday evening at the March meeting of Los Angeles Chapter, American Association of Engineers. H. W. Dennis, construction engineer for the Southern California Edison Company, also will address the association, his subject being "My Experience in the Design of Dams." The engineers will meet at the Windsor Tea Room 527 West Seventh street. Dinner will be served at 6:30, and the program will begin at 7:45. During the dinner, music will be furnished by the Engineers' String Quartet from the Los Angeles county road department.

William W. Astor created a trust for his heirs

HE established a trust with a large fiduciary institution in order to guarantee a safe and judicious administration of his estate.

HE wanted an Executor who would live indefinitely—one that would always be "on the job" and would never take vacations or be absent from duty for any reason whatsoever.

HE wanted an experienced Executor and one that was thoroughly responsible financially. And he knew that no individual could meet all these requirements.

WHY not be just as particular about your estate?

An Inaugural! In sizes 13, 15 and 17 years  
Collegienne Voile Chemise  
at \$1.95! Gowns, \$2.95

VERY short little chemise of cool voile for summer—the sort of lingerie the high school and college girl desires—in sizes to fit her correctly—13, 15 and 17 years. Collegienne Voile Step-ins in lovely shades. Also 13, 15 and 17 year sizes—\$1.95. And Collegienne Voile Gowns in sizes 13, 15 and 17. \$2.95.

One of Bullock's most important of recent developments toward an Ideal—

O'Rossen's "Yes sir!"

These are the suits that are furnishing fashionable conversation for two continents . . . Careful, man-tailored copies of the famous O'Rossen original! . . . Bullock's replicas, in black or navy, with satin lapels and waistcoat. Bullock's Suit Section introduced the "Yes Sir" suit by means of a small announcement in The Times . . . The fashionable interest this aroused was most gratifying . . . The suit section immediately arranged for these "Yes Sir" replicas . . . They have just come . . . At \$59.50 and \$85. Women's Suit Section—BULLOCK'S—Third Floor

Worthy of Inauguration Month Are  
Fine Side-fastening Girdles, \$5

An Inauguration Introduction  
Clever Handkerchiefs  
for Girls . . . at 25c each  
COLORED linen and Imported Voile Handkerchiefs in many novel effects decidedly unusual at 25c—Easter Handkerchiefs, with embroidered corners—some with lace edging. Unusual little checked effects and lovely spring monograms. An Inaugural value from Bullock's Fifth Floor—at 25c; 6 for \$1.25.

FASHIONED of fancy striped brocade (lined over the abdomen for reinforcement) and elastic. A garment that gives a snug hip-line and smooth waistline—for women who wear size 25 to 34. Six hose supporters attached—usually much more than \$5. More of Bullock's Long-line Formid Brassieres—at \$1.50

SINCE long ago when a Spanish Princess chose them as her bridal flower—Orange Blossoms have been cherished for their fascinating fragrance. Countless efforts have been made to distil this prized scent into perfume. Raquel has succeeded. It is now imprisoned in sparkling crystal bottles, in vivid colored containers. An inimitable line of Toiletries. Toilet Goods, Bullock's Street Floor.

## FROM THE HOME OF BETTER LIGHTING

## The WORK of an ARTIST

EXPENSE alone will not insure correct light-  
ing. Good lighting, like good music, is the  
work of an artist. Forve-Pettebone has a staff  
of lighting specialists—true artists in the medium  
of light. They can fill your home with an atmosphere  
of comfort, a gentle invitation, to relaxation and  
comfort. Your whole life is influenced by the "atmos-  
phere" of your evening hours at home. And atmo-  
sphere is largely a question of lighting.  
Visit our display room, and let us demonstrate what  
we mean by good lighting.

## The BALANCE WHEEL of Health

## WHAT EVERY DOCTOR KNOWS

Many of the poisons in the  
human system that impair  
the digestion and pollute  
the blood, originate from  
the undigestible "Poison"  
of the Intestines.

The successful use of A-  
dof-lus milk in certain  
types of intestinal disor-  
ders is now a recognized  
fact.

A-dof-lus milk is used  
by the medical profession  
to effect a transformation  
of the "Poison" of the in-  
testines, eliminating the un-  
digestible "Poison" and im-  
planting in their place a  
digestible, health-giving  
"Poison."

A-dof-lus milk is pre-  
served and is known  
to be a specific  
therapy in cases of intes-  
tinal toxemia, chronic  
constipation, chronic disor-  
ders and other intestinal  
disorders.

A-dof-lus  
A HEALTH FOOD  
L.A. CREAMERY CO.

A-dof-lus tastes good. It's a delicious  
food-beverage—a pure, cultured but-  
termilk, palatable and nutritious.

A-dof-lus is for the whole family. It  
is a pure scientifically-prepared L.  
Acidophilus milk, and should accom-  
pany all of your meals. To obtain  
benefit in cases of definite intestinal  
disorders, use it in quantities, and use  
it regularly.

## An Aid to Digestion

It is a definite aid to digestion and a reliable balance  
wheel of health. Beneficial results will surely fol-  
low its adoption as a table beverage in your home.  
Have it delivered fresh and cool every morning.  
Sold only in milk bottles—double-capped and

## SOCIETY

BY JUANA NEAL LEVY

Of more than usual interest was  
the first meeting this season of  
the women's committee of the Los  
Angeles Opera Association which  
gave its luncheon at the Biltmore  
yesterday afternoon, with the pres-  
ident of the association, Benjamin  
P. Bledsoe, George Leslie Smith,  
general manager, and Merle Armitage,  
business executive as the special  
guests of honor.

The table arranged in the shape  
of the famous "diamond opera-  
house" of the Metropolitan Opera-  
house, was exquisitely decorated  
with spring flowers and ferns sweet  
peas and carnations with sweet  
and other blossoms combined with  
milkmaid form and tulle.

The first social evening of the  
committee will be given at the  
home of Mrs. Shepherd in Syca-  
more avenue, Hollywood, Saturday  
evening, the 20th inst.

Those who attended the lunch-  
eon included Mrs. R. D. Shepherd,  
Mrs. Robert Irwin Rogers, Mrs.  
Charles Modini Wood, Mrs. Albert  
Sherman Hoyt, Mrs. Sloan Orcutt,  
Mrs. Fred Schaefer, Mrs. Helen  
Verbeck, Miss Margaret Bourne,  
Mrs. Edwin Rufus Collins, Mrs.  
Georgia Keating Kennedy, Mrs.  
Elizabeth Dejeans, Mrs. Sherman  
Danby, Mrs. Caroline Galbraith,  
Mrs. Ida Koverman, Mrs. Ursula  
C. P. Wastner, Miss Mona Wood,  
Mrs. Elizabeth Wood-Stack, Mrs.  
Benjamin F. Bledsoe, Mrs. Har-  
riet Penman, Mrs. William Dash-  
ley, Mrs. George Leslie Smith, Mrs.  
Audon Claudius Rives, Mrs. Jean  
Loughborough, Mrs. Ray Davidson,  
Miss Ellen Hennessey, Mrs. Wil-  
liam Boothby Gorton, Mrs. Arthur  
Wright and Mrs. Erwin H. Fur-  
man.

**Farewell Affairs**  
Many attractive, although infor-  
mal, affairs are being arranged in  
honor of Miss Gladys Wetherby  
of Lafayette Park Place, who with  
her parents is planning to leave  
shortly for an extended sojourn in  
Florida. One of the week's affairs  
will be the tea afternoon when  
Mrs. Marshall Francis McCormick  
of 323 South Alvarado street has  
asked a dozen intimate friends of  
Miss Wetherby for an afternoon  
of bridge and coffee. Those in-  
vited will be Miss Wetherby, Miss  
Ellen Andrews, Mrs. Frank Boswell,  
Mrs. John McCoy, Mrs. Jean Kaurton  
Sheehan, Mrs. Paul Clevins, Mrs.  
Ferrell, Mrs. Ralph Covert, Mrs.  
Raymond Stickney Taylor, Mrs.  
George Grimm and Mrs. Mark Da-  
vids.

**European Trip**  
Dr. and Mrs. Frank E. Dettling  
and their young son left last  
week for an extended trip. They  
are planning to visit for three  
weeks in the eastern cities and  
will sail the 24th inst. for Eu-  
rope.

**Housewife Becomes  
New Woman**

"All of our best doctors had given  
me up. I was unable to leave my bed  
for 18 weeks and was yellow as a  
pumpkin, besides the terrible stomach  
pains I suffered. Our druggist advised  
my husband to try Mary's Wonderful  
Remedy and it has saved my life. I  
am a new woman now." It is a sim-  
ple, harmless preparation that re-  
moves the catarrhal mucus from the  
intestinal tract and allays the inflam-  
mation which causes practically all  
stomach, liver and intestinal ailments,  
including appendicitis. One dose will  
convince or money refunded. At all  
druggists.—Advertisement.

ropes, where Dr. Dettling plans to  
pass some time at the clinic in  
the big medical centers of Con-  
tinental Europe. They will visit  
in England and the British Isles be-  
fore returning home, sometime in  
August.

**Bridge Luncheon**  
One of the loveliest of the early  
spring affairs was the luncheon  
with which Mrs. John P. Harding  
of the Ambassador entertained at  
the Mary Louise in honor of a  
group of Chicago friends who are  
stopping at the Ambassador and  
in Pasadena, Spring flowers and  
tulle graces formed the center-  
piece of the luncheon table and  
the place cards were daintily  
etched, marking the covers for the  
hostess, Mrs. H. H. McGovern, Mrs.  
Harry Gibbons, Mrs. John Schack,  
Mrs. Fred Schaefer, Mrs. Fred  
Brummel, Mrs. H. A. Mills, Mrs.  
Charles Myers, all from Chicago,  
and Mrs. Mont Tennes, Mrs. Ray  
Tennes and Mrs. Dorothy Tennes,  
former Chicagoans, who have been  
wintering in Pasadena. Miss Gene-  
vieve Brummel, Miss Helen Mills  
and Mrs. Case of Boston, Bridge  
club members, were the afternoon's  
entertainment following the lunch-  
eon.

Mrs. Charles F. Meitz, formerly  
a resident of Pittsburgh, Pa., and  
for the past six years making her  
home here, entertained Thursday  
afternoon with a luncheon at her  
home, 4222 Dalton avenue, the  
announcement of the engagement  
of her daughter, Miss Helen Rose  
Meitz, to George W. Fiero being  
the feature of the afternoon.  
Among the guests were Misses  
Fiero and Sanders of Detroit,  
Cheery, Everett, Branchman, of  
Cleveland; Huffman, Herriman,  
Vaughn, West and the Messrs. Wild  
and Mrs. Meitz. The date has been set  
for the wedding as yet.

**Bridge-Tea**  
Mrs. Clifton J. Platt was the  
hostess at a charmingly appointed  
bridge-tea at the Flintridge Coun-  
try Club Friday afternoon, when  
the rooms were ablaze with a pro-  
fusion of early spring flowers and  
foliage, and sixty-two guests were  
bidden.

**Whitecock-Crockwell**  
Sunday morning at sunrise Miss  
Anne M. Crockwell became the  
bride of Millard A. Whitecock, the  
ceremony taking place in the pa-  
rioles of the Briggs Apartments,  
with Rev. E. S. Chappel of the  
Pugent Sound conference officiat-  
ing. Mr. Lancaster sang "Oh  
Promised Land," preceding the cer-  
emony. A wedding breakfast fol-  
lowed the ceremony served by Mr.  
and Mrs. Horwick, and immedi-  
ately afterward the bride and groom  
left for their honeymoon and will  
make their home in San Fran-  
cisco.

**Announcement Betrothal**  
Formal announcement is made  
this morning by Mr. and Mrs. Fred  
Willis of 1431 South Mainfield ave-  
nue of the engagement of their  
daughter, Miss Dorothy Willis, to  
John Gage Parker, son of Mrs.  
Harriet Parker, and the late Wal-  
ter F. Parker of 221 South Wilton  
Place. The wedding will be one of  
the events of the season, and will  
be a student at University of Califor-  
nia, Southern Branch.

**Leaves for Home**  
Miss Jean Browne Scott, one of

the enthusiastic equestrians, who  
have been enjoying an extended  
visit in Southern California, left  
yesterday for Los Angeles Har-  
bor aboard the S.S. Mongolia for  
her eastern home in Philadelphia.  
Miss Scott is the daughter of J. R.  
Scott of the Quaker City, and owns  
one of the best string of show  
horses in America, including many  
international champions, her  
horses capturing the majority of  
the prizes at the recent horse show

## Your taste needs no education to know this goodness

NOBODY'S does—young or old! Gordon's  
Bread is like the sunlight, or a morning in the  
mountains, or Mother's pies, or young love—  
in that respect. It's one of the elemental, un-  
iversal things. The first taste just naturally  
makes you curl your toes up and swallow a  
little faster than you meant to—you're so  
eager to get another bite. It's more delicious  
than you thought bread could be!

Every crumb of Gordon's is just packed  
with good health. It's made of the purest,  
finest ingredients obtainable anywhere in the  
world. Mixed and baked by master-bakers.  
Sealed in dust-proof packages. Delivered  
fresh, twice a day, to your grocer. Insist upon  
Gordon's!

HONORED AT BIRTHDAY PARTY  
Mother Entertains for Her at Dinner

[Porter S. Cleveland, Hollywood]  
Miss Mary Fish

ONE of the attractive affairs of  
recent date was the dinner  
party with which Mrs. Ruth  
Cooper Fish of North Vermont  
entertained at the Mary Louise in  
honor of her daughter, Miss Mary  
Fish, the occasion celebrating her  
birthday anniversary. The guests

included schoolmates of the hon-  
ored guest at the Hollywood Coaching  
School and women of the Mary  
Louise. A yellow and green  
color scheme was effectively car-  
ried out with a profusion of jon-  
quills and ferns and the place  
were sketches of colonial scenes  
and gentlemen.

here, Miss Scott was accompanied  
west by her mother.

**Campus News**  
The revival of the traditional  
senior snap at University of South-  
ern California has met with wide-  
spread approval by fourth-year  
men and women at the Trojan in-  
stitution as reflected in the atten-  
dance of the first affair of the kind,  
which was held last Wednesday  
evening at the Pi Beta Phi house,  
647 West Twenty-eighth street.  
Miss Evelyn Ross, vice-president  
of the senior class at University  
of Southern California, was in  
charge of the arrangements, as-  
sisted by Miss Clara Kauffer, Miss  
Dorothy Davis and Miss Jennie  
Lee Moore. Formerly the senior  
snaps were held monthly at the  
University of Southern California,  
in an attempt to promote  
friendships within the senior class.  
Barton Hutchins, president of the  
senior class, has arranged to have  
these informal dances semi-monthly af-  
fairs.

**Beta Delta Chapter of Alpha Phi**  
at University of California, South-  
ern Branch, announces the initia-  
tion of Miss Charlotte Busby, Miss  
Eloise Giletrap, Miss Mary Harris,  
Miss Jane Johnson, Miss Ruth  
Jones, Miss Neola Meekins, Miss  
Virginia Munson, Miss Mary Beth  
Rarick, Miss Jane Russell, Miss  
Margaret Titus, Miss Pauline Turn-  
er and Miss Ida May Vallant, the  
ceremonies taking place at the  
chapter house, 1637 North Hollis-  
trope Drive, followed by a banquet  
at Vista del Arroyo, Pasadena,  
where the tables were ablaze with  
baskets of spring flowers. Mrs.  
Jane Hancock, member of Alpha  
chapter and former dean of wom-  
en at Northwestern University,

gave the address on Frances Wil-  
lard, famous member of Alpha  
Phi, and other speakers were Miss  
Charlotte Cramer, toastmistress,  
Miss Ruth Atkinson, Iowa chapter,  
Miss Maxine Hopkins, president of  
Beta Delta chapter, Miss Sarah O'  
hill, Miss Elizabeth Keatinge and  
Miss Pauline Turner. Honor  
guests besides the newly initiated  
were Miss Mary Louise, Miss  
Christine Bauer, Miss Astoria  
Berkshire, Miss Margaret Cline,  
Miss Margaret Dille, Miss Roberta  
Dozier and Miss Jane Graham, who  
were initiated in September, 1925.

**Goodcell Goes  
North to Plan  
for Campaign**

Hex B. Goodcell, who will soon  
make a formal announcement of  
his candidacy for Governor of  
California, left yesterday for San  
Francisco to attend a conference  
of State leaders and to be present  
at the formal opening of the Good-  
cell Northern California head-  
quarters in the Bay City.

Immediately following the ap-  
pointment of his successor as Col-  
lector of Internal Revenue, Judge  
Goodcell will open Southern Cal-  
ifornia headquarters and also State  
headquarters in Los Angeles.  
Goodcell organizers are already  
at work throughout the State and  
the formation of Goodcell clubs  
will start immediately after April 1,  
it was announced yesterday.

**SUIT CASE OF OPIUM  
RESULTS IN ARREST**  
A suit case of opium valued at  
\$1500 was found yesterday in the  
possession of Ah Fong, main-  
street waiter, according to Nar-  
cotic Inspectors Bright and Ed-  
mund. It was shipped, they say,  
from San Francisco, and presum-  
ably had been landed from a  
steamer from the Orient. Ah  
Fong was arraigned before Com-  
missioner Head, who held him in  
\$1000 bail for examination tomor-  
row.

## The LAST WORD

By ALMA WHITAKER

HER BOY  
"Oh, yes, I knew what to do  
Mother has tried to consult al-  
lude twice before... so I  
knew what to do," said the boy of  
17, whose mother had once been  
a famous beauty.

You all know the case. The  
mother has figured in the news for  
years. She rose from humble ob-  
scurety to admired fame, she mar-  
ried a millionaire who shot a for-  
mer lover, and since then she has  
been steadily going down hill, un-  
til this third attempt at suicide  
was flashed across the continent  
recently.

And every mother's heart must  
have ached for that boy. How has  
he managed to keep fine and loyal  
with such a heritage? All who  
know him declare that he has kept  
fine and loyal, that his protective  
attitude toward his frail, foolish  
once lovely, but now degraded  
mother is a beautiful, exquisite  
thing.

The poets, the dramatists, arti-  
sts everywhere tell us that all  
greatness must be born of tragedy.  
No individual character can be  
fine and great that has not suffered  
tragedy. No life devoid of tragedy,  
no mind and spirit that has not  
suffered only the externals, want their  
pleasures light, frothy, cheaply  
gay. They fear to plumb the  
depths of tragedy, even by proxy,  
even vicariously. The tragedy of  
grand opera is discarded for frothy  
musical comedy. Prettily senti-

North to Plan  
for Campaign**

Hex B. Goodcell, who will soon  
make a formal announcement of  
his candidacy for Governor of  
California, left yesterday for San  
Francisco to attend a conference  
of State leaders and to be present  
at the formal opening of the Good-

quarters in the Bay City.

Immediately following the ap-  
pointment of his successor as Col-  
lector of Internal Revenue, Judge  
Goodcell will open Southern Cal-  
ifornia headquarters and also State  
headquarters in Los Angeles.  
Goodcell organizers are already  
at work throughout the State and  
the formation of Goodcell clubs  
will start immediately after April 1,  
it was announced yesterday.

**SUIT CASE OF OPIUM  
RESULTS IN ARREST**  
A suit case of opium valued at  
\$1500 was found yesterday in the  
possession of Ah Fong, main-  
street waiter, according to Nar-  
cotic Inspectors Bright and Ed-  
mund. It was shipped, they say,  
from San Francisco, and presum-  
ably had been landed from a  
steamer from the Orient. Ah  
Fong was arraigned before Com-  
missioner Head, who held him in  
\$1000 bail for examination tomor-  
row.

Here, for Los Angeles breakfast tables, is the selected goodness of Vermont's best maple orchards

THERE are only so many maple trees to yield their yearly treasure of sap... only so many patient bees to drag loads of that sap to old-time sugar houses deep in the snowy Vermont woods.

Only a limited quantity of genuine maple syrup can be offered to American homes. But the fact is that Los Angeles is supplied with this rare delicacy today. Ask your grocer for Highland Pure Maple Sap Syrup. Then you get the 100 per cent pure article—maple syrup as whole and rich, as smooth and fragrant as though you yourself took it from some bubbling vat in an upland sugar lot.

Use Highland Pure Sap Syrup to give that subtle tang of maple to many cooked dishes. Use it on hot cakes and waffles, of course, or baked apples and grapefruit, in puddings, sauces, icings. You will please your family and your guests.

Send for free booklet, "Delicious Maple Recipes." The Cery Maple Sugar Co., St. Johnsbury, Vermont. Maple Center of the World.

## WORK AND PAY ALIMONY? BLAH!

Wife Puts Resources Necessity Up to Court, But Husband Pleads Debts, No Job and No Money, So That's That; Gave Mate House But She Says He Nailed Up Doors

No Hogan—that is to say, no Nelson Story Hogan—would ever sell his hands with labor, according to Mrs. Felicia Hogan, who told Judge Summerfield she had it from Nelson Story Hogan himself.

The Hogans, wife and husband, were before Judge Summerfield yesterday to hear what the judge had to say in response to Mrs. Hogan's query, "How about a lit-

tle alimony?" She has a suit for divorce pending.

Mrs. Hogan told of having pawned her diamonds and of begging for help from her husband's father. Hogan's attorney said he did not have a cent.

## Cinema Circles Aid Firemen in Ticket Selling

In appreciation of fire protection given theaters and studios, motion picture actors, directors and executives are aiding members of the fire department in their ticket-sale campaign for the annual ball to be held at the Shrine Civic Pavilion the night of the 17th inst.

Among those in film circles who are assisting the department are Paullette Duval, King Baggot, Reginald Barker and Ralph Spence.

An elaborate program for the ball has been arranged, according to Fire Chief Scott. There will be continuous music from 8 p.m. furnished by a combination of the thirty-two-piece Firemen's Orchestra and three bands to be sent by Battalion Chief Solomon from his Grand-avenue pavilion.

## Bandit Suspect Declared to be Swindler Also

Jack Molin, 25 years of age, arrested Saturday as a bandit suspect, has been identified as the youthful swindler who defrauded Miss Ethel Bain, 2215 West Seventh street, of \$25,000 in the course of a two years' acquaintance, police announced yesterday.

The suspect is declared by police to have posed to Miss Bain as a representative of a large rubber company and to have obtained the money from her supposedly for investment in the company.

He was arrested Saturday by Detective Lieutenants Senger and Curtis as one of the three men who held up Bert Farmer of 1615 North Western avenue and his girl companion Friday night and robbed them of \$600 in cash and jewelry.

**EVANGELIST ARRIVES**  
Railroad Preacher to Give Series of Lectures Here

R. W. Greenman, traveling railroad evangelist, arrived in Los Angeles yesterday to give a series of lectures on "The Railway to Heaven." The first address will be given at 8 p.m. today at Victoria Hall, 123 1/2 South Spring street. The public is invited and a special invitation is extended to all railroad men "from section hands to presidents." Mr. Greenman, although more than 60 years of age, declares he is as strong as he was sixteen years ago when he first began preaching to railroad men. He is 6 feet, 6 inches tall, and weighs 270 pounds. He is known all over the United States and Canada and his transportation is provided by the railroad companies.

## More Help for Sheriff Ordered by Supervisors

Twenty-four-hour service for the county identification bureau will result, Sheriff Traeger said, from the authorization by the Board of Supervisors of eight new employees, an assistant superintendent, two desk clerks, two finger-print experts, one assistant photographer and two secretaries. The Supervisors also authorized another assistant cook for the jail, which makes four in all.

The new employees were authorized by the board after a conference with the Sheriff.

## New Delay in Tax Hearing of Circus Owner

The hotly contested income-tax suit against Alpheus G. Barnes Stonehouse is destined for another delay when it comes up for trial today before United States Judge James, according to Asst. U. S. Atty. Layne.

Three before Stonehouse and the government have sought delays on various technicalities and today it will be extended a fourth time because negotiations for settlement are pending in Washington.

Originally Stonehouse, known as Al G. Barnes, circus owner, was claimed by the government to owe personal and business taxes on 1921 income totaling \$150,000. Added penalties have increased this amount to \$205,542.

**NUMB HANDS**  
"I awaken each night and find my hand numb. The only way I can get relief is to let my arm hang straight down to the floor. I am perfectly well in every way, as far as I can know. Sometimes I suffer with an ache up to and in my elbow.—Mrs. B."

How about your sleeping posture, Mrs. B.? It is probable that you put your arm under your head in such a way that it cuts off the blood supply. Have a thorough physical examination, and if nothing causing pressure symptoms is discovered, I think you can rest assured that I mean you are right.

**INHERITED OBESITY?**  
"Dear Doctor: I have reduced from 281 to 240 in five months. The first twelve days I lost ten pounds, the week after five pounds, then I continued to lose at the rate of about two pounds a week. I am 56 years of age and have been fat since I was 3. Practically every member of my mother's family weighs over 200 pounds; my father did weigh 230, but he got diabetes and is now a living skeleton, and mother has hardening of the liver.

"Before I began 'dieting' I had not menstruated for four years, and figured I had passed the menopause very early. In two months after I began your diet, my menstrual periods began and have been regular ever since.

"While dieting I did all the hard work I could think of and did the most strenuous exercises I could invent. Even though I still weigh 240 pounds, I do not look it. My face has lost its extra chins and has taken on a more youthful contour; not have I wrinkled. I use an electric vibrator on my face, and an astringent lotion that men use after shaving. I sleep in an armchair. I lost sleep at first, but since I have been saving some of my milk for bedtime, I sleep like a baby. My health and looks have improved markedly, and I am going to continue until I get my weight down to normal.

"I run barefoot along the edge of the ocean for ten miles, once a week.—Mrs. F. F. F."

You undoubtedly have saved yourself from the diabetes which your father stepped into, and from the hardening of the liver your mother suffers from.

I suppose you thought that if your family were overweight, it was an inherited characteristic for you, so you had to be overweight. That fallacy has caused a lot of trouble.

It is not unusual for the menstrual periods to stop or become irregular in women who are excessively fat. The ovaries undoubtedly lose their functioning power and this helps to make the system more susceptible to putting on fat; therefore, we have a vicious circle.

Will you write me again when you get down to normal? Or halfway down? For five feet five inches in height you should weigh around 130 to 135, so you still have 100 pounds to lose. After one loses forty to fifty pounds, it is wise to rest—go on the maintenance diet. You can allow two or three pounds gain in weight from the extra retention of water which the extra food allowed will demand.

It would be better if you could have a shorter run along the beach, every day. A slow jog-trot is one of the best exercises for reducing. But anyone so heavy as you should have a heart examination before beginning any exercises.

Thank you ever so much for writing.

(Our book on reducing can be obtained by the request, accompanied by a fully self-addressed, stamped envelope and 10 cents in stamps.)

L.—You can have our list of books on minor nerve troubles for request and self-addressed, stamped envelope.

Tomorrow: Adopting a Child.

My Dear Doctor: When sending me material each week, please send me a stamped, self-addressed envelope bearing your full name and address. The purpose of reducing and eating is the only one for which you must include 10 cents in stamps extra. Address your letters to me in care of this paper. Make them as brief as possible, not over 200 words, and type or write them neatly with ink. Please don't paste on evidence of good faith—will not use it in my notes. Remember that I am not a doctor, and I am not to be consulted for you or to answer your questions. I appreciate very much the beautiful letters you send me and hope it is impossible to give you individual advice. The questions you ask will be answered in the column as soon as possible, if they are of general interest. Don't forget the stamped, self-addressed envelope if you expect me to send you the information I have offered.

**FRATERNAL CHIEF DUE TOMORROW**  
President of National Woman's Congress Will Spend Week in City

Miss Bina West of Port Huron, Mich., supreme commander of the Women's Benefit Association, and president of the National Fraternity of the World, will arrive in Los Angeles tomorrow to carry on work connected with the association during the next week. It was an announced yesterday.

Friday Miss West will be an honor guest of the Republican Club of Los Angeles at a luncheon.

The Women's Benefit Association is characterized as the largest fraternal benefit association in the world, composed exclusively of women.

Miss West will be accompanied by the supreme commander of California, Minnie W. Aydelotte. Mrs. Aydelotte has full charge of the order in Washington, Oregon, Nevada, and California, and British Columbia.

The arrangements for the visit will be in charge of the deputy great commanders of Southern California, Mrs. Belle M. Barnard and Mrs. Julia G. Ginn, who have arranged for a rally of all the California reviews in the Knights of Columbus Auditorium, the 16th and 17th inst.

**Sister Pleads to Go to Jail in Brother's Stead**

The spectacle of a sister pleading tearfully with the court to be permitted to serve out her brother's jail sentence was enacted yesterday in Municipal Judge Turney's court.

The sister is Mrs. Lorenzo Santa Maria. Her brother, Frank Santa, had been convicted by the court of violating the Wright Act and was given the alternative of paying a \$75 fine or going to jail for twenty-five days. He stated he would take the jail sentence.

Thereupon his sister leaped to her feet in tears and pleaded with the court to permit her to serve the jail sentence for her brother. She stated he had a wife and family to support and that they would be left in want if he went to jail. But the course of the law could not be changed. Judge Turney stated that though his sympathies were all with her, he could not grant her plea.

**CITY CALLS FOR BIDS ON INCINERATOR PLANT**

The Board of Public Works yesterday subscribed to the specifications and plans for the municipal incinerator plant and advertised for bids to be received April 7. The city voted \$400,000 in bonds for the plant. Several previous bids have been rejected by the board. The plant will be located in the city of Vernon. The board also rejected bids on the demolition of several old buildings on the new City Hall site adjacent to the former location of the Bulard Block, and called for new bids to be received Friday.

Gambling Suspect Changes Plea to Obtain Light Penalty

Henry Williams, a negro, apparently was distrustful yesterday of the kind of treatment accorded defendants in Municipal Judge Pope's court. Heading a line of nineteen asserted crap-shooters taken at 1603 East Twenty-third street Saturday night, he stammered over his plea, and finally made it not guilty.

The first of the eighteen, then the second, the third, and so on, entered guilty pleas while he looked on. Each was fined \$5 or one day. When the end of the line was reached he looked considerably relieved.

"Your Honor," he said, "I'd like to change my plea."

The change was permitted and he paid his fine and departed smiling.

"Where'd you get him?" asked Deputy Sheriffs Large and Lamkin of Deputy Sheriffs Dunn, Quast and Fitzgerald almost at the same instant.

The questions were exchanged across a jail elevator in the Hall of Justice. The first-named team had in custody Jack O'Day, whom they accused of robbing oil stations; the second had brought in Larry Wilson, alias Perm Walters, whom they charge with a burglary at Hamlet.

The questions were prompted by the fact, the officers said, that Dunn, Quast and Fitzgerald had been looking for Wilson as an accomplice of O'Day, and Large and Lamkin had been looking for O'Day as an accomplice of Wilson. Both prisoners were booked for a double investigation.

# Moreno highlands

## A Panorama of Mountains, Sea and City

To appreciate the Lake Front Unit of Moreno Highlands, it must be seen. Then its position as the outstanding value of 1926 may be understood.

Think of these beautiful homesites, high above the very heart of the city, with a hundred mile panorama of mountains, sea and city always stretching away from your window, and yet remember you are living only 15 minutes from Seventh and Broadway.

A wonderful network of highways serves the tract, the restrictions are for a long time and assure the residential value of the property for the next fifty years. The improvements are all concrete and the public utilities are all in conduits. Schools are close at hand, and even though so close to the city, the homes in Moreno Highlands are free from aggravating and congested traffic, it's safe for the children.

The prices of this remarkable property are such as to appeal to the investor and the homemaker, while the terms make it easy to buy—10% down and 1% per month. Three years to pay.

To find anything similar to Moreno Highlands, one must travel miles farther from the center of the city and then pay more dollars than are required to become an owner in Moreno Highlands.

Call any of the numbers listed below and arrange for a motor inspection of the property. Or if on any Hollywood car get off at Sunset and Golden Gate Ave. and call at 3505 Sunset Blvd., where cars are waiting to take you to the Highlands. Do it today.

## INTERVIEWER

"Young girls didn't get drunk in my young days," said Dr. E. H. Shields, retired Cincinnati physician, who is at the Ambassador.

"Nobody ever heard of such a thing because it simply never happened. Times have changed now and youthful so-called ladies think no more of imbibing potent liquids to the point of inebriation than the girls in my day did of partaking of ice cream."

"The greatest menace confronting the American people today, in my opinion, is the rapidly increasing number of women who are craving for hectic excitement of all kinds permeates all classes and all ages. What the remedy is I don't know, any more than I know what the final outcome will be. But I am convinced that the spirit of the times is unwholesome."

**Need Faster Trains**

"California should all get together in an effort to obtain faster train service between this section and the East," said S. J. Strauss, manager of the Chicago branch of S. W. Strauss & Co., who is at the Ambassador.

"Coastbound trains don't run, they loaf. A seventy-two-hour schedule between Chicago and Los Angeles is absurd. Southern California has every advantage except one over all other sections as a place for recreation. That one is the interminable journey necessary to reach it."

"They can't tell me that increasing the speed of the trains would make the trip so uncomfortable that everybody would raise a howl. On our way out here from Chicago our train lost three hours back along the line somewhere. But they made it up, all right, and got into Los Angeles on time. They must have speeded up somewhere, but nobody noticed it and I heard no complaints."

**Niagara Freezes Up**

"For the first time in many years Niagara Falls during the present winter froze up to the point where no water could be seen flowing," said Mrs. Alfred W. Gray of Niagara Falls, who is at the Ambassador.

"School children from every section in the vicinity of the cataract were taken to see the huge mountain of ice that had replaced the falls. It was a beautiful sight and one that had never theretofore been presented on so large a scale. Of course, a mass of ice forms at the foot of the falls every winter, but this time there was a solid wall of it about 160 feet high."

Mrs. Gray said the great freeze was attributed to the unusually low stage of the Niagara River.

**Harmony in Home**

"Greater harmony prevails between the railroad operators and the railroad brotherhoods at this time than at any time since the unions were organized," said T. R. Dodge of Cleveland, assistant president of the Railroad Trainmen's Brotherhood, who is at the Clark.

"The brotherhoods and the railroads are now co-operating in an effort to obtain Congressional legislation for the abolition of the Federal Labor Board. It's the first issue on which the two ever joined hands."

**Apple Yield Large**

"California's apple crop in 1925 amounted to 2,750,000 boxes," said James Sheehy of Watsonville, known as the California apple king, who is at the Biltmore.

"This was a good yield when it is considered that the entire apple area of this State does not exceed 30,000 acres. Half of this area is in the vicinity of Watsonville. 'Only a limited part of the land in California is adapted to apples. Attempts have been made to grow them in many sections where the yield has been so poor that the trees have been cut down in favor of other crops."

"Gravestones, Newtown Pippins and Bellefleur are the only apple varieties that do well in most sections of California. Red apples, which form the principal crop in Washington and Oregon, don't flourish anywhere in California except in the southern part of the State, where red apples fully equal to the Washington varieties are produced in a limited section. About 85 per cent of the apples produced here are consumed in the State."

## AMADOR'S WIFE WINS SUIT HERE

Final Decree Given Against Man Mentioned in Recent Tia Juana 'Shame Suicides'

Luis Amador, proprietor of the Oakland bar at Tia Juana, who is under indictment in connection with the "shame suicides" of the Thomas Petset family, figured in court proceedings here yesterday when Judge Stephens granted a final decree of divorce to his wife.

Mrs. Amador, who, for more than a year has resided in Santa Monica, charged that Amador deserted her. A letter produced by her attorney, Samuel J. Crawford, and said to have been written by Amador, declined to consider a reconciliation. The Amadors were married on June 18, 1914, and separated December 25, 1919, the complaint stated.

Some of the incidents which led to the death of Thomas Petset, his wife, and two daughters in a suicide pact, are said to have occurred in Amador's Tia Juana bar. He was originally charged with first-degree murder, but after deliberating on the case a lesser charge was filed against him by Judge Urias of the Court of First Instance of Lower California.

## ANNOUNCES PREMIER PRODUCTION

Maurice Browne to Open Little Theater in April at Gamut Club

If enthusiasm can be converted into great round dollars, the Maurice Browne Theater project is on its way to success.

Saturday evening at the Mgm's City Club leaders from all over the city gathered to discuss with Mr. Browne his plans for a little-theater group similar to that he started fifteen years ago in Chicago. Praise for the idea was general.

Letters and telegrams were read from John Galsworthy, John Barrymore, Irving Pichel, founder of the Playhouse in Kew-Forest, Franklin K. Lane and numerous others interested in the drama—and also interested in Maurice Browne and his wife, Ellen Von Volkenberg.

The first production on April 5, "The Princess Who Wouldn't Die," will be held at the Gamut Theater.

Browne feels confident, though, that a theater will be available soon for their own productions.

The assemblage represented men and women from all parts of the city, and all types of endeavor. Mrs. Margaret B. Gillette, acting as chairman with Thomas Elson, principal of the Roosevelt High School, as toastmaster.

Among those who spoke were Miss Helen Brooks, head of Cumstock School; Miss Nadine Crump, superintendent of community service, U. S. C. Ray, member of the school of speech, U. S. C.; Rabi Magnin, Dr. E. P. Ryland, president of City Playground Commission; Mrs. Arthur T. Aldis, Alfred Bensheim, principal of Polytechnic Evening High School; Dr. Margaret Carhart, assistant professor of English, S.B.U.C.; Mrs. J. T. Anderson, president of Woman's City Club; Mrs. W. E. Silverwood and Miss Carolina Abrams.

After "The Princess Who Wouldn't Die," the Maurice Browne Theater will present "The House in Which We Are Born."

"The Trojan Women," "The Strange Case of God and Miss Sippy," and others.

Between productions salons will be planned where the public may become acquainted with the players.

## FIGHT EXPECTED ON COMFORT STATIONS

UTILITIES COMMITTEE OF COUNCIL SUBMITS TWO REPORTS

A fight on the floor of the Council is expected today when the majority report of the Public Utilities Committee on the matter of granting franchises for the erection of thirty public comfort stations under downtown streets is received.

The majority report, signed by Chairman Moore and Councilman Johnson, made no recommendation, while Councilman Sparks, in a minority report, opposed granting the franchises on the ground that it will increase the congestion of pedestrians on the sidewalks.

He also opposed the franchise, stating that it might possibly interfere with the construction of a downtown subway. The question may be referred to committee of the whole.

## MATTONI TO APPEAR IN ROLE OF ROMEO

Andre Mattoni, the European actor recently brought from the Ufa studio in Germany, will play "Romeo" in Universal's big production of the famous Shakespearean play.

Announcement of the selection of Mary Philbin for the role of "Juliet" has already been made by Carl Laemmle, president of Universal, who is personally handling plans for the making of the big picture.

No director has yet been chosen for the picture, but there is a possibility that E. A. Dupont, the foreign director, who came to Universal City with Mattoni, may handle the production.

## COLOR EFFECTS IN "IRENE" ADMIRABLE

Subdued colors, a recent invention in photography was used for the first time in a feature production during the filming of "Irene," Colleen Moore's greatest picture now being shown for a limited engagement at the Million Dollar Theater.

The colored scenes are used exclusively in the fashion sequence which is composed of the most gorgeous gowns ever assembled for a screen production.

Through the new subdued process, the reds and other bright colors which have heretofore produced an effect not entirely pleasing to the eye, blend and are submerged to the level of quality tones of the other colors.

## WILL BE FEATURED IN "THE WANING SEX"

Low Coffy and Claire Windsor, who have not appeared together on the screen for many months, are to have the leads in Robert E. Leonard's production of "The Waning Sex," according to an announcement from Louis B. Mayer, head of the Metro-Goldwyn-Mayer studio.

Leonard is at present in New York to pay a visit to his bride-to-be, Gertrude Olmsted. With Leonard is F. Hugh Herbert, famous English novelist who is writing a screen adaptation of "The Waning Sex," originally a successful stage play by Frederic and Fanny Hatton.

Power and Light Service Celebrates Opening of Electric Appliance Exhibit

The City Bureau of Power and Light was host last evening to about fifty newspaper people and city employees on the occasion of the opening of the bureau's new electric appliance exhibit and laboratory.

Supper was served at a long table decorated with a replica of City Power Plant No. 1 in the center. All the dishes were cooked by electricity in the departmental kitchen and served by employees of the bureau.

Burdett Moody, business agent of the department, spoke briefly on the development of the bureau from the beginning of the Aqueduct project and the purpose of the new exhibition rooms and laboratory.

Included in the exhibit is every standard make of every sort of domestic appliance for the use of electricity in the home, together with charts showing cost and comparative hour of operation, with means for demonstrating the articles under all possible conditions. The appliances comprise all modern devices for heating, lighting and cooking by electricity and the exhibit features a model electrical kitchen, where a demonstrator will be on hand at all times. The purpose of the new department is to educate the public in the correct use of electrical appliances and thereby develop demand for city current.

EVERYBODY STEPS  
ORPHEUM BILL OVERFLOWS WITH DANCING  
By Grace Kingsley  
If there is one thing the Orpheum isn't suffering from this week, it is a lack of dancing.  
Every act on show a little stepping at least, and several of them are mostly that.  
We almost expected Frankenstein to step up on the stage and show us a little hoofing by the time we reached the intermission. Instead of which he high-tailed it, gave us a little tragedy relief, as it were, in the midst of so much comedy by playing "Pale Moon" very nicely indeed with the aid of his orchestra.  
Strangely enough the one act that should have had more dancing in it was Nancy Welford's. Nancy is such a cunning little stepper, and we are so used, from the "No. No. Nanette" days, to expecting it from her.  
However, this dainty little pocket Venus got along very nicely, thank you, with her singing and one short dance, and, of course, had to sing "Tea For Two" and "I Want to Be Happy."  
Jean Schwartz played some of the famous popular songs which he wrote and made a nice appearance and impression. But I personally think that California Surahine song let the act down. It is too slow and quiet, and there isn't any use trying to sell us sunshine. We know all about it.  
This isn't the first time that "Rolling Stones" has rolled here until the cyclorama and chorus girls fall to pieces, which both seem in a fair way to do, by the way. It is "Oh, Teddy," with the uncanny Billy House in the lead. Billy is a real comedian, and as the mannequin-fancier, his butter-an-egg patter is a real thing they do, and fairly funny at that.  
Speaking of St. Vitus, there is also Jean Boydel, in a lot of grotesque character songs. Seemed to amuse the house, though.  
Tryin' the dancer is lovely, and brings unique and gorgeous set and costumes to the stage in the form of radiant Spanish dances. Some of these seem to be regular Mexican and Spanish folk dances, and little trinity is to be highly praised for the manner in which she has staged everything she does. For our American taste, perhaps, the act is a bit leisurely, but even this is a sort of rest to our jazz-jaded senses.  
Opening up are Ward and Dooley, a neat little couple, in a singing-dancing-roping or what-have-you act. Neat and pleasing. Nothing in the world kept the customers from the usual stampeding at the recessional act except the camaraderie with which Van De Velde and Company surround their stuff. There is a brilliant back-drop showing a tiny mountain town; the troupe play the violin; and it is some time before you find out it is really a very fine head-and-hand balancing and juggling act. The girl is a standing on her head, balanced on the head of her brother, and juggling all sorts of things.  
Grieve With Lubitch  
The services of Harold Grieve, art director, who helps to produce Marshall Neilan's pictures, and who also had all there was to say about costume design, "The Merry Widow" has been secured by Ernst Lubitch for his next Warner Brothers picture.  
Patsy Ruth Miller is rapidly establishing a reputation for herself as one of the screen's foremost comedienne. In three of her most recent pictures, "Red Hot Tires," "Hogan's Alley," and "Nightie Night," she has contributed an average of a laugh to each 100 feet of celluloid. Her present role in the Warner Brothers production of "Why Girls Go Back Home" combines both humor and pathos.

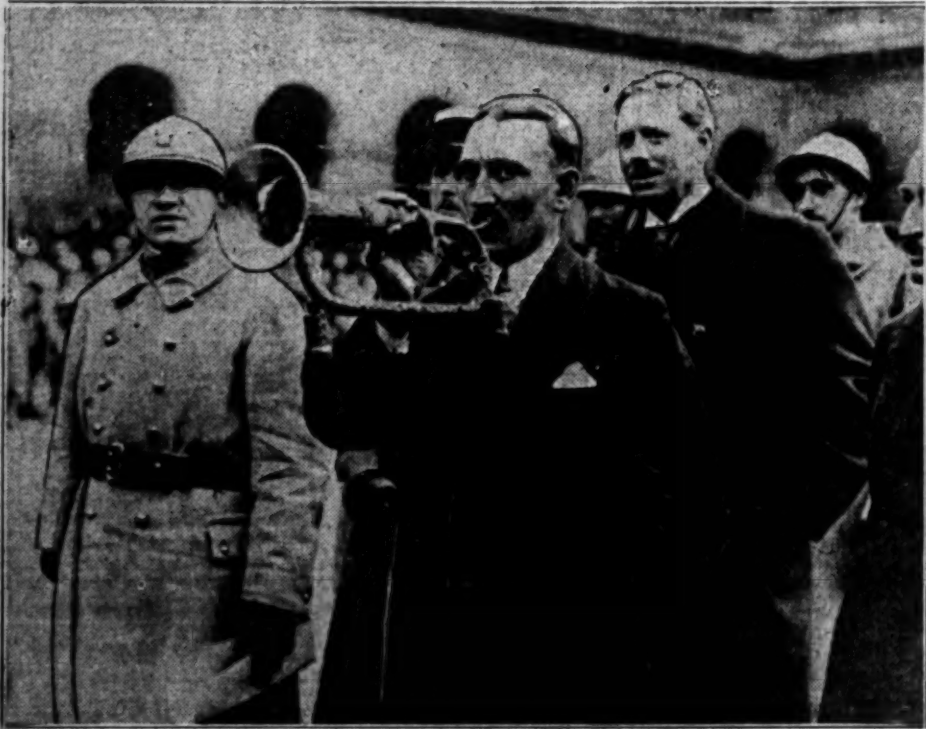

**COMEDIANS AT HILL STREET**  
If you like the Kelso brothers, you will enjoy the Hillstreet this week. But if you do not—then the consequences are sad. For these boys manage to appear in four acts of the six on the bill. They have an act of their own with a slight-of-hand trick, and some slight-of-humor ones, also.  
That done out of the way they walk into Billy de Lisle's act and dance. The audience claps enthusiastically and settles down to look at the next act.  
It's no use. On come the Kelso brothers again, posing this time against the circus tent in a skit. "Outside the Circus" they bring on some more stunts and the same humor. Then the curtain goes up on "Furtell's Jungle Lions," and the Kelso brothers are right there leaning against the cage where the poor neglected lions are.  
The act is half over before the lions are asked to play about for the audience. They look decidedly put out over something and have a naughty way of snarling at the trainer which brings cold shivers.

**Edna Purviance Resumes Work at Chaplin Studio**  
Edna Purviance, star of Charlie Chaplin's famed photoplay, "A Woman of Paris," after an absence from the screen is once more back in the fold at the Chaplin Studio, playing the featured role in "The Sea Gull," an original story. It is a drama of modern California, written, and to be directed by Joseph Von Sternberg.  
Preparations for Miss Purviance's second and dramatic vehicle have been going on for some time under the guidance of Von Sternberg and his staff.

Most Choked by Stifling Gas!

Who have spells of choking? Many are usually surprised to find that such distress results from the stomach pressing against the diaphragm. Sometimes these attacks are caused by sharp pains in the abdomen, extreme nervousness, or a peculiar all-gut feeling.

Gas Tablets, taken at once, offer the safest and surest relief. They get at the very cause of the trouble and help to remove it completely. They are a powerful stomachic, relieving the stomach, relieving the diaphragm, relieving the lungs, relieving the heart, relieving the brain, relieving the nerves, relieving the muscles, relieving the bones, relieving the skin, relieving the hair, relieving the nails, relieving the teeth, relieving the tongue, relieving the throat, relieving the voice, relieving the breath, relieving the taste, relieving the smell, relieving the sight, relieving the hearing, relieving the touch, relieving the feeling, relieving the thought, relieving the action, relieving the reaction, relieving the result, relieving the end.

## FRESNO POLICEMEN ARE REINSTATED BY JUDGE

### Officers Accused of Attempt to Violate Liquor Laws to Get Back Pay

**FRESNO, March 8.**—Eleven former Fresno police officers who were dismissed by Mayor Al Sunderland from the city service after their indictment by the federal grand jury on charges of conspiracy to violate the national prohibition act were returned to duty and allowed back pay by an order of Superior Judge Denver S. Church this afternoon.

The judge allowed a petition for a writ of mandamus asked in the name of Miles R. Lindberg, one of the officers, making his return to duty and award of back pay. The case was a test action calculated to set a precedent in the other police cases.

Judge Church disallowed a writ of prohibition asked in the name of Oliver P. Durr, another former officer, seeking to have the Civil Service Board ruled without authority to try his appeal of the Mayor's order.

City Attorney Loren A. Butts and Mayor Al Sunderland announced that the city would appeal to clarify the situation. The probable effect of Judge Church's decision will be the restoration of the eleven men headed by former Acting Chief Eugene A. Parnes, payment of salaries from the time they were dropped totaling about \$10,000; leaving the city open for trial before the Civil Service Commission on the other charges.

Judge Church said that Mayor Sunderland had no right to file amended charges against the men after they were found not guilty in the federal court trial. While refusing to halt the trial of the officers by the municipal Civil Service Board, holding that this body had full jurisdiction to pass on both the facts and the sufficiency of the charges, Judge Church in a statement from the bench expressed himself strongly of the opinion that the Mayor's charges were insufficient and without legal warrant.

In denying Durr's writ of prohibition, on which he ruled first, Judge Church said, in part:

"While a great number of questions were raised by the argument on this petition, it seemed to me that the one outstanding point which is really determining the right of the Civil Service Board to inquire into the sufficiency of the charges, I think the decisions are quite uniform. It is the opinion of this court that the board has jurisdiction over the facts involved. It also has jurisdiction over the sufficiency of the charges."

"There is no telling what the board is going to do, but under the law it is presumed that a public body will do its full duty. It is presumed that if the charges are sufficient to justify the board to inquire into the sufficiency of the charges, I think the decisions are quite uniform. It is the opinion of this court that the board has jurisdiction over the facts involved. It also has jurisdiction over the sufficiency of the charges."

After declaring that the petition for the writ of mandamus was more strongly fortified in law than a predecessor, the court again began a discussion of sufficiency of the charges leveled by the Mayor. Judge Church declared that while he was not passing on that particular point, he was of the opinion that the power of the appointing officer to suspend or remove an officer is limited to the suspension of civil service employees against whom charges have been filed and that dismissal was in excess of authority.

"There was no basis, in my opinion, for the Mayor's order to remove the officers from the city service, which was not contemplated by the city charter or any law, as they were foundationless and had no meaning."

"This thing of taking an officer's position away from him is more important to that person than to an individual who has been elected to office. He is under civil service and a security of these things are substantial, and not to be taken away on vague and uncertain generalities and conclusions."

## RARE CASE OF HORSE

### THEFT IS REPORTED

**ENCINO, March 8.**—Hardly a day passes but what the Valley Division of police have to figure in an auto-theft case. A case of old-fashioned horse-theft, however, is a rarity. They were surprised today when H. Rich, who resides in Encino Acres, reported that thieves had gone off with a gray horse and a bay mare that he had staked out to graze near Ballona avenue and Louise street. When Rich later went to get the horses, he found the thieves had unstrapped their ropes and led them off. Police assert that horses have grown to be such a rarity in San Fernando Valley that a thief leading a horse on any of the valley highways would attract attention.

## VALLEY NEWSPAPER GETS NEW EDITOR

**LOCAL CORRESPONDENCE**  
**GIRARD, March 8.**—It is announced here today that H. Phelps Gates has been named managing editor of the San Fernando Valley Star, succeeding P. C. Smith, who has resigned because of sickness in his family, and gone north. The Victor Girard interests in San Fernando Valley are publishers of the newspaper, which, until the first of the year was known as the Girard News. Gates has been connected with the Girard activities in the valley for some time, having at one time been publicity director of the Ventura Boulevard Chamber of Commerce, of which Victor Girard is one of the leading directors. His headquarters will be at Van Nuys.

## PAYS HEAVY FINES FOR DELIVERY TRIP

**VENTURA, March 8.**—Responding to a telephone call for the delivery of three pints of liquor, Les Darnell of Ventura, was surprised upon motoring out into the country to a gun club building to be faced by Federal investigator Robert Abel and Deputy Sheriff William Stryker.

Darnell was tried in Justice Court this morning and paid \$400 for transportation of liquor, \$400 for possession, and lost his car, which was confiscated by the court.

## PREPARE TAX RETURNS

**VENTURA, March 8.**—C. W. Dunton, Deputy Collector of Internal Revenue, arrived in Ventura this morning to begin the return season until the 15th inst., assisting local residents in the filing of income tax returns. Dunton is keeping an open house in the Council chamber daily, and is to remain at his post until midnight on the 15th inst. to assist late filers of returns.

**DISCUSSES MODERN ISSUES IN RELIGION**  
**Conference is Largest Ever Held on Campus**

**CLAREMONT, March 8.**—That the issue in present-day religion is not between fundamentalism and modernism, but is instead a problem of four related issues, was the statement made by Dr. Eugene Lyman of the Union Theological Seminary of New York in an address delivered before eighty Southern California pastors at the annual pastors' conference held at Pomona College today.

In place of the fundamentalism modernism question Dr. Lyman presented four real issues. First, the contrast between naturalistic humanism which looks upon God as a symbol, and liberal Christianity which sees the contrast between religion as an ideal social living and religion as a mystical communion; third, the contrast between religion interpreted as feeling and religion interpreted as a response to trust and a reality; and finally, religion interpreted as pragmatism and religion interpreted as ethical realism. These he regards as the central issues in the present religion, and he urged one of education of the masses into the meaning of modernism.

In addition to the address given by Prof. Lyman, the visiting ministers were addressed by Dr. William W. Scudder, former district secretary of the United Methodist Church, speaking on "The Battle Against Autocracy in the Mission Field." Time was given for an open forum discussion, following the addresses. Dinner was served at noon in Claremont Inn Commons, followed by the session of the relation of the churches and Pomona College.

Today's conference attendance was the largest in the history of any held on the local campus. The conference was held at Pomona College, which is a member of the Pomona College music department at a student recital given in Bridge's Hall of Justice, which was followed by Dr. Eugene Lyman's second address on creative religion.

## FIND INSANE WOMAN

**Patient Wanders From Home and Is Found at Escondido.**

**SAN DIEGO, March 8.**—Mrs. Dorothy Stratton, daughter of the State Appellate Court reporter, for whom an extended search was started Saturday night following her disappearance from the home of Mrs. C. H. Atwood near Ramona, was found today at Escondido.

The woman has been mentally afflicted at times as a result of a childhood accident, and was placed in the care of Mr. Atwood in the hope that her health might improve. She had been missing for several days, and her father had been registered at the Escondido hotel and her queer actions caused the proprietor to notify the authorities.

Officers, who went to the hotel, expressed the opinion that Mrs. Stratton was insane and Sheriff Hersey ordered her taken to the County Hospital. The woman's father, J. H. Crumrine, is in San Diego and arrangements are being made for her return to Los Angeles county authorities. Her insanity is said to be of a menacing nature.

## ON LONG WATCH

**Santa Ana Officer Waits for Absent Bootleggers**

**SANTA ANA, March 8.**—Three men are in the County Jail charged with possession of intoxicating liquor following their arrest by B. A. Hersey, city officer, who trapped them in an orange grove near Santa Clara and Grand avenues.

Hersey remained in the orange grove for several hours waiting for the men, and when they appeared, he arrested them. He remained there for hours awaiting the arrival of the owners.

Hersey arrested Earl Wolfe, 19, Villa Park; Charles Collins, 20, 21, North Lemon street, Orange, and R. C. Stullings, 21, Bakersfield.

Police were notified that twenty-four pints of liquor, valued at \$100, had been found in an orange grove. The arrested boozers were taken to the police station and later returned to the place where it was found. With it went Hersey, who stationed himself under an orange tree. He remained there for hours awaiting the arrival of the owners.

## WALNUT TREES ARE BUDDING IN VALLEY

**MISSION ACRES, March 8.**—An additional sign of spring is in the fact that all the walnut trees in large fields are now budding, while all the apricot orchards are now a mass of pink blossoms. Winter beets and carrots, growing in large fields are being harvested, and are being taken to Los Angeles markets in large trucks. Near Mission Acres are several large ranches planted with cabbage, which is now fully matured and ready for market. Some of the cabbage heads are as large as half-bushel measure, and of extra fine quality. Spring lettuce in this section is up several inches, and should be ready for market within a few weeks. All land in the Mission Acres district is highly pulverized by constant cultivation and acreage is well moistened from the recent rains. Vast fields of poppies are growing in almost every direction.

## SAN DIEGO TO HAVE COUNTY DOG LAW

**SAN DIEGO, March 8.**—A county dog license law will be prepared this afternoon by Albert J. Lee, legal adviser of the County Board of Supervisors, and Dr. Alex Leem, county health officer, as its provisions are expected to be somewhat drastic as a change from practically no regulations.

The new ordinance will provide for licensing dogs in the county outside of the incorporated municipalities. It is said, Heretofore dogs have been permitted to run at large on ranches and farms without license.

The present danger of rabies was given as the reason for the decision to draw up a county dog ordinance and vaccination of all dogs probably will be a regulation under the new measure.

## HELD FOR TRIAL

**POMONA, March 8.**—Held on a charge of reckless driving after his machine, which was asserted to have been driven at a high rate of speed, crashed into the side of the California Market, 302 East Second street, Sunday, D. Chano of Los Angeles was today released upon deposit of \$100 bail to insure his appearance here for trial in the near future.

### Redlands Monday Police Court Presents Parade of Offenders Charged With Unusual Violations of Criminal Laws

**REDLANDS, March 8.**—Strange things happen in the police courts, but three of the strangest took place in that of Judge P. M. McIvor here today. For in just a short time eight men, all with the same name, John Doe, were fined \$10 each for playing poker, then a boy who repaid a kind ancestor for a ride in his machine by stealing an expensive overcoat from the car, was arraigned and right after that a human sphinx was brought into court in the shape of a laughing lover who was content to love at a distance, but became enraged when two boys attempted to flirt with the object of his affections and slashed them with a knife.

The eight, all with the same name, were caught last night in a bachelor apartment here and were playing cards. There were chips on the table, much money in a box and they were charged with gambling. Today all have the name of John Doe and paid fines of \$10 each.

## LIVE, NOT MAKE A LIVING

### Head of Chicago University Tells of Work of School of Which He is the Head

**By a "Times" Staff Correspondent**

**PARADISE, March 8.**—To teach man how to live, rather than how to make a living; to merge into one rational being the business man, the scholar and the philanthropist—this is the most important educational task of the next half-century, and it is the aim of the University of Chicago, according to its president, Dr. Max Mason, now here at the Hotel Huntington.

Bringing industry and learning into closer harmony to the profit of each, the university seeks, Dr. Mason says, to weld the instinctive, the acquisitive and the generous instincts of a student into a balanced individual, conscious of his duty to the world.

The ambition of the University of Chicago, admittedly one of the country's greatest, is to impart old facts and learning to its students, than it is to provide a laboratory in which scholars and their pupils may search unhampered for truths not yet learned, for facts not yet known about the world in which they live.

As a consequence of this policy, Dr. Mason pointed out, the university of which he is president places great emphasis on its graduate schools. More doctors of philosophy have been graduated from Chicago than from any other university in the country. Three of the four American winners of the Nobel prize were scientists of Chicago. Dr. Albert A. Michelson and Dr. Carroll, are originally of the University of Chicago.

This year, with an initial endowment of \$5,000,000, the university will start the building of a new graduate medical college, which it expects will be second to none, Dr. Mason stated.

Dr. Mason is here primarily to attend a banquet in his honor to be given tomorrow night by the Chicago Alumni Association of Santa Barbara, in Santa Barbara, California. He and Mrs. Mason will, however, remain at the Huntington for about three days.

## WATER FOR BEACH IS NOW SURE

### Directors Sign Contract for Pipe to Bring Precious Fluid to Resort City

**LAGUNA BEACH, March 8.**—Good water was nearer to Laguna Beach today when the directors of the Laguna Beach water district awarded the contract for \$25,000 worth of eight and six-inch cast-iron pipe to the United States Pipe and Foundry Company of Birmingham, Ala. Shipment will be started within thirty days and the pipe will reach San Pedro before May 1. The bid was below the estimate of the engineers.

R. W. Martindale, general western representative of the bidders, sent a telegraphic order and work will begin at once on casting of the pipe. The pipe is intended for the distribution system in Laguna Beach, but will be used for the temporary line from the Coalinga Dam reservoir to the Newport Beach system, a contract for which was signed between the water board and the Trustees of the city of Newport Beach last week. There was loud applause at the board meeting when Attorney Clyde Bishop announced that the Trustees had agreed to the nature of the paper that will assure a supply of good water for Laguna Beach this summer.

# FREE LOT CASE DRAWS CROWD

O'Connor Hearing Adjourned to First of April

Entire Day Spent in Taking of Testimony

Two Complainants Tell of Cabin Site Deal

After a day spent in the taking of testimony State Real Estate Commissioner Gabbert yesterday adjourned until April 1, next, a hearing in the case of Albert O'Connor, a complainant, charging Cyril J. O'Connor, head of the O'Connor Realty Company, and George Davidson, a salesman, with misrepresentation in the disposal of cabin sites near Big Bear Lake.

The hearing is being conducted on the joint complaint of Albert O'Connor, a complainant, charging Cyril J. O'Connor, head of the O'Connor Realty Company, and George Davidson, a salesman, with misrepresentation in the disposal of cabin sites near Big Bear Lake.

The charges against O'Connor and Davidson look toward the revocation of their real estate licenses and consist principally of statements made by Mrs. Schultz, a witness, to the effect that the salesman misstated the proximity of a lot to the lake and the value of the property.

Davidson told her she was one out of 2800 who would get a lot valued at \$485.50 free, provided she paid \$15.00 for improvements. Mrs. Schultz testified, she was told by the salesman that the lot was worth \$1500.00.

After a trial on similar charges now pending in the Municipal Court, attorneys for the real estate men will present their case.

Deputy United States Marshal Rice and a strong guard will leave this afternoon for McNeil's Island, near Tacoma, Wash., with eleven prisoners found guilty and sentenced in the Federal district court during the last week.

Among those sentenced to terms in the prison are Rubin Bailey, Venice boy-banker, sentenced to the state prison for three months for embezzlement of the bank's money; Henry Lowery, convicted Salt Lake City white-slaver; Donald Caffery, Eugene Turner, for drug-store and postal-station hold-ups; George A. Davidson, convicted mail bandit; Eddie Gray and Robert H. Becknell, for postal substitution robbery; and Ng Sing and Ng Gin, Harrison Narcotics High School, and there were plenty of places to go. All over the building and out on the campus they could go and find friends likewise dressed up and going.

For today was the annual Dress-Up Day of the junior and senior high schools, and if anybody didn't dress up for the occasion he didn't show up. Neither did she. Girls and boys alike donned costumes that gave the place a Hollywood atmosphere with the tang of picture lots in the air.

There were showgirls, troubadours, flappers, milkmaids, dudes, hoboes—everything. For the time being studies were relegated to the background.

# ANGELENO COMMANDS WAR UNIT

Maj. Leslie G. Bryant Will Have Charge of Military Police Battalion

Orders have been issued from the headquarters of the Ninth Corps Area, United States Army, at San Francisco, assigning Maj. Leslie G. Bryant, infantry reserve, a Los Angeles really man, to the command of the Three Hundred and Ninth Military Police Battalion of the Ninth Army Corps, Organized Reserve.

The police battalion is a first-phase combat unit and is to be called into active service immediately upon a declaration of war. The enlisted personnel is all obtained by voluntary enlistment. During peacetime only a small number of such are enlisted, specialists or men suited for the higher grades of noncommissioned officers.

Headquarters and two companies of the battalion are allocated to Los Angeles and one each to Santa Barbara and Riverside. At present only a portion of the twenty-two officers required to effect the battalion have been assigned. Maj. Bryant and Lieut. Gilbert Proctor of the Regular Army are checking over lists of suitable reserve officers selecting desirable material for assignment.

June 6, next, the officers of the battalion will be ordered to active duty for fifteen days to attend an instruction camp, probably at Fort McArthur. Three officers of the Regular Army are detailed as instructors. It is also expected that several of the best-qualified instructors from the police department of Pacific Coast cities will handle the instruction in criminology and other police subjects.

**FACES MAIL CHARGE TRIAL**  
Suspect in Pridham Extortion Case May Be Given Into Federal Custody by Grand Jury

William Everett Hawkins, 24-year-old chauffeur who is accused of writing two extortion notes to R. W. Pridham and his family, will be a subject for potential prosecution by the United States government when his case is referred to the Federal grand jury tomorrow by U. S. Atty. McNabb and Postal Inspector Kline.

The government officers will seek an indictment against Hawkins on charges of using the mails in a scheme to defraud. Until the grand jury's decision Hawkins will be retained in the custody of police, by whom he was arrested Friday, unless he seeks to obtain his freedom on a writ of habeas corpus, then a United States commissioner's complaint citing the accusations will be filed against him and he will be transferred into Federal custody.

Last Saturday Hawkins lost considerable of the bravado that marked his early hours in jail and burst into tears, exclaiming over and over again that he was made the innocent victim of another's wrongdoing. His sibilant cry was in the nature of a plea for mercy, demanding \$5000 or the life of his Pridham family were sent, he firmly stands by despite the repeated efforts of detectives to write a confession from him.

The first of the two death notes was received by Mr. Pridham two days later. Both were turned over to the police and Hawkins' arrest followed. Before he was taken into custody, Hawkins was maintained over the Pridham home at 115 North Rosemead avenue.

# BEARDSLEY DIES AFTER OPERATION

Chief of City Commissary Department Many Years Succumbs at Hollywood

Edward R. Beardsley, 45 years of age, chief of the commissary department of the city for a major portion of the past sixteen years, passed away at Hollywood Hospital yesterday following a major operation, which was resorted to in an effort to remedy a chronic intestinal ailment with which he had suffered for several months.

It was in the capacity of commissary department chief that Mr. Beardsley served during the construction of the Mulholland Highway, Beverly Boulevard, Calhoun and the Beverly-Sherman Road.

For five years he served during the construction of the Los Angeles Aqueduct, working under D. J. Raber in the construction of the aqueduct, and later as chief of the city department.

Mr. Beardsley came to Los Angeles from his native state of New York, twenty years ago. He leaves his widow, Mrs. Maybelle Beardsley. He was a member of Westminster Lodge, A. O. U. W.

Funeral services will be conducted at 2 p. m. Thursday at the chapel in Rosedale Cemetery. The body will be cremated and then interred.

**High Court Says Man Has Right to Change Mind**  
Time-honored traditions have clearly established the right of a woman to change her mind at will, but it remained for the State Supreme Court to set a precedent yesterday granting a man the same privilege.

Such a ruling was established by the seven Supreme Court justices in a weighty deliberation when the case was called upon to rule on the motion of attorneys for Mrs. Alice E. Sanders for the dissolution of her marriage to a man who had accepted the property division decree and then later changed his mind and filed an appeal.

The justices were undecided whether he had the right to do so, and a vote was taken. The majority was four in favor of Sanders' right to appeal and three against.

**Veterans Give Entertainment Tomorrow Night**  
An open house and entertainment will be held by the Disabled Veterans of the World War at 244 South Hill street at 7:30 p. m. tomorrow in observance of the sixth anniversary of the organization. Frank L. Newman, managing director of the Metropolitan and Million-Dollar theaters, will be master of ceremonies.

Local artists will appear on the program. The entertainment will be a dance and a banquet for disabled ex-service men will be served by the Gold Star Mothers and War Mothers of the World War. Warren Grinnell is chairman of the entertainment committee.

**ASKS MANDATE FOR BARNES CITY VOTE**  
Leslie E. Smith yesterday filed a petition in the State Supreme Court for a writ of mandate compelling the Board of Trustees of Barnes City to make proper preparations and call a municipal election April 12, next. The petition asserts that the remainder of the term of the Board of Trustees, which expires on March 12, 1927, should be held in accordance with the city charter.

**MASONIC CLUB NAMES EXECUTIVES TONIGHT**  
The annual meeting and election of the board of directors of the Masonic Club of Los Angeles will be conducted in the clubrooms at 8 o'clock tonight. There also will be a smoker and vaudeville entertainment. Rev. Frederick H. Blair will address the club at its luncheon in the club dining-room tomorrow.

**STUDENTS TO HEAR ENGINEER**  
William E. Wichenden, special investigator for the Society for the Promotion of Engineering Education, will deliver a lecture on engineering education for the Carnegie Foundation. He was for many years professor of electrical engineering at the University of Wisconsin, and later associated with the Massachusetts Institute of Technology.

**Silence May be Golden but Its Use Has Limits**  
"Their silence is a shout," declared Cleo in hard Latin words.

Thus with Francis Viera, whose silence echoed reverberatingly in Judge Gates' court yesterday, and won for Mrs. Thelma C. Viera a decree of divorce.

"He would sit without saying a word for hours at a time. At the table he would read a newspaper all the time. Once while we were driving in our car he said only three words in twenty miles. I watched the speedometer and counted the words," Mrs. Viera related.

"Economic use of words, per se," the court observed. Judge Gates found that Viera's taciturnity was cruelty and granted Mrs. Viera a divorce.

**Spanish Airmen Drop Down for Southland Visit**  
By a "Times" Staff Correspondent

SANTA MONICA, March 8.—Two ambitious and studious young men of the Spanish Air Service in the person of Capt. Carlos Pastor and Capt. Carlos Pastor descended from the clouds here today. A few moments later they were being shown through the plant of the Douglas Company by Donald Douglas, president, and H. H. Wetzel, vice-president and general manager of the aircraft manufacturing concern.

The two visitors have completed courses in aviation having studied at various fields in the East and South, and after visiting aircraft plants in San Francisco and Seattle, they are here for a brief stay. They are to return to Spain not later than May 1.

While here they were also the guests of Lieut. Leslie Arnold, commander of Los Angeles Airport at Griffith Park.

**Grade Accidents Declared Fewer on Espee's Lines**  
There were fewer grade-crossing casualties on Southern Pacific lines during 1925 than in the previous year, it was declared yesterday in a report by R. J. Clancy, assistant to the general manager in charge of safety work, though he gave out no figures. One flagman was killed, five others were injured and 380 lowered crossing gates were struck by automobiles during the year, he said.

In 80 per cent of the cases where autos and trains crash together, records show autos hit the train, said Clancy. "Cars in the middle of the train are frequently killed and even rear-end platforms of cabooses are knocked off."

Clancy said 99 per cent of the 1925 industrial accidents of the company were caused by some one's carelessness. A total of 1134 foremen of the company had "no accident" records for their careers during the year. W. H. Hunt of the San Joaquin division has had a "no accident" record for forty-one years.

**DOG-BITTEN PEDDLER ASKS \$294.99 IN SUIT**  
Is the bite of a dog worth \$294.99? This question was submitted yesterday in the suit of Thomas Rice, a vegetable peddler, against A. Bocchini, tried before Municipal Judge Baird. Rice asserted Bocchini's dog bit him while he was crying his wares in the street and that he had torn clothing and a hospital bill as a result. Judge Baird reserved decision.

**GUARD ADMITS AIDING SLAYER TO ESCAPE**  
[EXCLUSIVE DISPATCH] PHOENIX, March 8.—Five days after his escape publicly was given on the departure of Harry H. Nash from the State penitentiary at Florence, to which he had been given a sixty-five-year sentence for murder, Don E. Kemmerling, a prison guard, is reported to have confessed that he helped Nash across the outside wall to liberty.

**THE NATION'S HERVANT**  
February 1 marked the sixty-first anniversary of the proposal of the Thirteenth Amendment to the Constitution of the United States—the one which made slavery unconstitutional. Today it is estimated the services of electricity to the people of the country would, if provided by slave power, require about fifteen slaves for every person in the country.
